This presentation is for use only in select investor presentations with (i) “U.S. Persons” as defined in Regulation S under the Securities Act of 1933, as amended (the “Securities Act”), that are both “accredited investors” and “qualified purchasers” (as defined in the Securities Act and Investment Company Act of 1940, as amended, respectively) and (ii) investors outside of the United States that are not “U.S. Persons”. It may not be reproduced for, disclosed to or otherwise provided in any format to any other person or entity without the prior written consent of Clearlake Capital Group, L.P. (“Clearlake” or the “Firm”). This presentation does not constitute an offer to sell, or the solicitation of any offer to purchase, an interest in any of the funds managed by Clearlake or its affiliates (each, a “Fund”) in any jurisdiction. Any such offer or solicitation will be made only by means of a confidential private placement memorandum, which should be read carefully prior to making an investment. Any decision to invest in any Fund should be made solely on reliance upon the offering documents.

Any investment decision with respect to any Fund must be based solely on the definitive and final version of the applicable confidential private placement memorandum, amended and restated limited partnership agreement, investment management agreement, subscription agreement(s) and related documentation for the Fund. There is no assurance that any Fund will achieve its investment objective or generate positive returns. Such an investment is subject to various risks, including a risk of total loss. These materials have not been approved by the U.S. Securities and Exchange Commission, the Financial Industry Regulatory Authority, the Commodity Futures Trading Commission or any other regulatory authority or securities commission in the United States or elsewhere. This presentation contains opinions, which are expressed as of June 2021 and may change as subsequent conditions vary. Clearlake has no duty to update the person or firm to which this presentation is provided. Certain information contained herein have been obtained from published sources and from third parties, including, without limitation, market forecasts, internal and external surveys, market research, publicly available information and industry publications. While Clearlake believes these sources are reliable, they are not guaranteed as to accuracy or completeness.

Information about individual investments, including examples or subsets of investments, unrealized value other financial metrics and/or specific fund metrics may not be representative of, or material to, overall fund performance or future outlook. As the information about investments is intended to be examples or subsets demonstrating a particular theme or process, they do not represent all investments that could be categorized or described and in the aggregate may represent only a small percentage of existing and historical investments led by Clearlake. Investments in other companies may have materially different results. It should not be assumed that any investment for which information is not provided would perform similarly to the examples provided. Only information contained in a confidential private placement memorandum should be relied upon for any investment decision and/or purchase of limited partnership interests in any Fund. As such, reliance upon individual investment performance, other individual portfolio company information and/or specific fund metrics is at the sole discretion of the reader.

Fund performance can vary significantly over time, and there is no assurance that reported unrealized values can or will be realized; such values may have been derived or estimated from unobservable inputs, assumptions, and multiple traditional and non-traditional valuation approaches; such assumptions, believed to be reasonable by Clearlake, may nonetheless be inaccurate and/or subject to material differences based on judgment and other subjective measures; and future actual realized returns may differ materially from the unrealized value estimates included in fund performance calculations. In addition, some of the information contained herein constitutes “forward looking” information that is not historical in nature respecting future performance, events or conditions, whether of operations of a business and/or of the achievement of objectives of a portfolio investment. Such forward-looking information is based upon certain assumptions about future events or conditions and is intended only to illustrate hypothetical results under those assumptions (not all of which will be specified). Not all relevant events or conditions may have been considered in developing such assumptions. As such, there can be no assurance the investment will achieve its investment objectives or avoid losses, and past performance is not necessarily indicative of future results. Gross performance data does not account for fees, expenses or carried interest and/or incentive allocation, all of which would reduce returns to investors.

In addition, certain information contained herein may have been obtained from companies in which investments have been made by entities affiliated with Clearlake. Although such information is believed to be reliable for the purposes used herein, neither any Fund nor Clearlake assume any responsibility for the accuracy or completeness of such information. Information about individual investments, including unrealized value, may not be representative of, or material to, overall fund performance. Past performance information indicated herein is neither a guarantee nor indicative of the future performance or investment returns of any Fund and actual events or conditions may not be consistent with, and may differ materially from, historical or forecasted events or conditions. Reliance upon information in this material is at the sole discretion of the reader.

Furthermore, there is no single standard for determining fair value in good faith of private investments and, in many cases, fair value is best expressed as a range of fair values from which a single estimate can be derived. When appropriate, those values are based on estimated preliminary financial information and are derived from a regularly quoted price on a nationally recognized exchange, by averaging suitable broker-dealer bids either received by Clearlake or aggregated through a third-party service provider. Investments where there is no regularly, or reliable quoted price or broker-dealer bid are determined based on the enterprise values at which the investments could be sold in a reasonable period of time. Enterprise values of investments are determined using any combination of valuation approaches deemed relevant by the General Partner including market comparables, discounted cash flow, sum-of-the-parts and other relevant analyses. Consideration is given to such factors as historical and projected financial data for the company, valuations of comparable companies, the size and scope of the company's operations, the strengths and weaknesses of the company, potential market receptivity to an offering of securities by the company, the size of the investment in the company, information regarding transactions or offers for the company's securities (including the transaction effecting the investment and the elapsed period of time since), industry information and assumptions, general economic and market conditions, indicative guidance from potential underwriters and other factors deemed relevant. The valuations that are reviewed by the independent third-party valuation firm and by auditors may not include an audit, review, compilation, information verification, assessment of internal controls or any other form of examination or attestation of the underlying portfolio company and data used to perform the valuation review. While unrealized investments are valued based on assumptions that Clearlake believes are reasonable under the circumstances, whether on a public market basis or an estimated fair market value basis, the actual realized returns on unrealized investments will depend on, among other factors, future operating results (including, without limitation, the implementation of specific strategic and operational initiatives, performance of management and employees and legal, regulatory and other risk factors specific to each portfolio company), the value of the assets and market conditions at the time of disposition, any related transaction costs and the timing and manner of sale, all of which may differ from the assumptions on which the valuations used in the prior performance data were based. Accordingly, the actual realized returns on the unrealized investments may differ materially from the unrealized values derived from Clearlake's valuation procedures and there can be no assurance that the investments will be realized at the valuations reported by Clearlake.

Tax treatment depends on the individual circumstances of each client and may be subject to change in the future.

Any Fund mentioned in this material is offered only on a private placement basis and potential investors are required to inform themselves of, and to observe, any legal restrictions on their involvement in the offering. No sale of fund interests will be made in any jurisdiction in which the offer, solicitation, or sale is not authorized or to any person to whom it is unlawful to make the offer, solicitation or sale.

The presentation is being provided for informational and discussion purposes only and does not constitute an offer to sell or a solicitation of an offer to purchase an interest in any Fund. Any such offer or solicitation may only be made by means of a confidential private placement memorandum of any Fund, which will describe certain risks related to an investment in such fund, including without limitation, dependence on the General Partner, risk of loss, and liquidity of the investment. The information contained herein may not be reproduced or used in whole or in part for any other purpose. Certain information (including economic and market information) contained herein has been obtained from published sources prepared by other parties.
