

**Investment Recommendation**

SERS’ Investment Office Staff and SERS’ Private Credit Consultant, StepStone Group, recommend that the State Employees’ Retirement System Investment Committee, subject to further legal due diligence, interview Clearlake Capital Group (“Clearlake”, the “GP” or the “Firm”) at the September 28, 2021 Investment Committee Meeting to consider a potential investment of up to \$75 million in Clearlake Opportunities Partners III, L.P. (“COP III”, or the “Fund”), pending the satisfactory completion of legal due diligence. Clearlake is targeting capital commitments of \$1.5 billion for COP III.

**Investment Rationale**

Staff identified COP III as a strong candidate for SERS’ capital commitment as it offers:

- Additional exposure to a high-quality private investment manager that has generated strong net returns;
- Additional exposure to a private investment manager that outperforms private peers and alternative indices;
- Capital preservation as evidenced by a low loss ratio, combined with a focus on downside protection;
- A strategy led by a team that has invested successfully across economic cycles with the experience and ability to pivot into distressed investments, providing SERS’ Private Credit portfolio with an “all-weather” investment strategy;
- Consistency with SERS’ portfolio objectives as outlined in the IPS and Strategic Plan.

**Investment Risks**

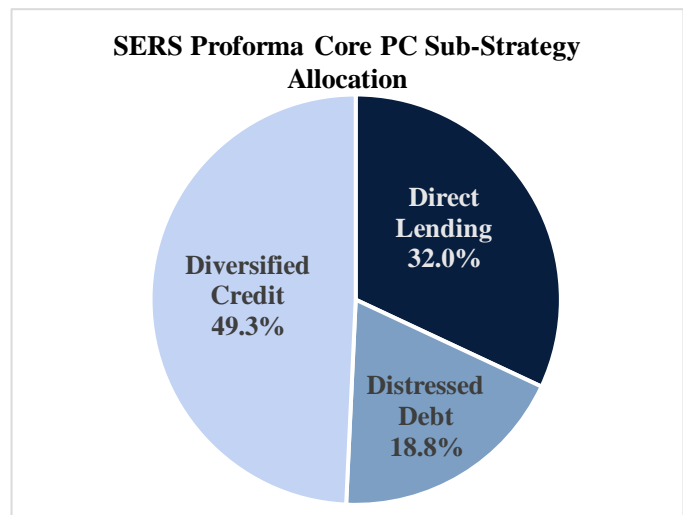

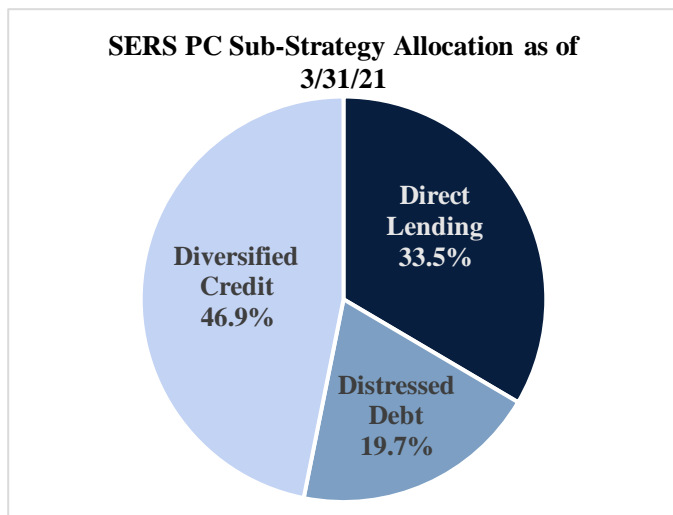

Staff identified the following potential risks of a commitment to COP III:

- Investment team capacity to effectively invest and manage COP III and the other Clearlake funds.
- Potential conflicts with other Clearlake private equity funds having overlap with investments in COP III.

**Portfolio Implications**

A commitment to COP III would be considered a 2021 vintage allocation to a fund which is categorized in the Private Credit asset class and Diversified Credit sub-asset class. As of March 31, 2021, SERS’ total exposure to Diversified Credit represented appx. 46.9% of the Private Credit portfolio. A commitment level of \$75 million also reflects a position size of appx. 4.7% within the Private Credit portfolio.

The following two charts highlight the pro forma effect a commitment to the Fund is expected to have on sub-strategy allocation within the Private Credit portfolio.

**Sponsor Overview**

Founded in 2006 and headquartered in Santa Monica, CA, Clearlake is a private market investment firm that employs a value-oriented, sector-driven approach to investing in North American middle-market businesses, primarily in technology and tech-enabled services, industrials, and consumer. The Firm now manages over \$43 billion in assets and employs 75 people, including 28 investment professionals.

## Investment Strategy

Clearlake Opportunities Partners III is being formed to apply the broad Clearlake investment philosophy flexibly to non-control investment opportunities that provide strong risk-adjusted returns while investing across the capital structure with elements of downside protection.

Clearlake's investment philosophy is cemented through the following key tenets:

- Flexible and Creative Approach to Investment Structure
- Sector Driven Philosophy
- Exploit Inefficient Markets
- Value Focus
