

Memorandum

Date: June 11, 2024
Subject: Defined Benefit Plan Investment Manager Evaluation List

The following is the Defined Benefit Plan Investment Manager Evaluation List ("DB Evaluation List") as of March 31, 2024. The DB Evaluation List is compiled in conformance with the criteria established in the Investment Manager Monitoring Policy adopted by the Board on October 29, 2014, and amended on December 7, 2016, and May 5, 2022.

The placement of an investment manager on the DB Evaluation List does not automatically serve as evidence of a problem with the investment manager. The DB Evaluation List was developed to clearly communicate which investment managers have been identified as experiencing quantitative or qualitative pattern changes worthy of greater review by SERS' investment office and external investment consultants.

Callan recommends adding Martin Currie Emerging Markets Equity, Leading Edge Emerging Markets Equity, Brown Brothers TIPS and New Century Global TIPS to the DB Evaluation List this quarter. Callan and Staff will continue to monitor the investment managers.
