

DEFINED CONTRIBUTION PLAN – INVESTMENT PLAN FEATURES AND HIGHLIGHTS

In your defined contribution investment plan, you pick how your money will be invested for retirement and you assume the investment risk.

The State Employees’ Retirement Board selected **Empower** as the third-party administrator of this plan.

Empower Mailer

You will receive a letter from **Empower** in the next few days, welcoming you to the Defined Contribution Plan. After you receive that letter, you can register your online account, name your beneficiaries, and choose your investments.

Contributions

You and your employer contribute to your investment plan each pay period.

Your employer automatically withholds a percentage of your pay and transfers it to your investment account – that is your contribution. Your employer also contributes an amount equal to a percentage of your pay and transfers it to your investment account – that is your employer’s contribution. The percentages are set by law in the State Employees’ Retirement Code.

In addition to those mandatory contributions, you have the option to make additional voluntary contributions toward your defined contribution investment plan. There may, however, be tax advantages to making those voluntary contributions toward your deferred compensation investment plan instead. Consult a tax advisor for more information.

Vesting

Vesting in this type of plan refers to when you earn the right to portions of your account.

Your contributions (including rollovers from previous employers and earnings) are immediately vested. Employer contributions are vested after three years of service.

In other words, if you leave state employment before you work three years, you have a right to your contributions and earnings; however, you would have no right to the amount your employer contributed. The value of your contributions, and any employer contributions, will vary with investment gains and losses.

Plan Fees

Recordkeeping or Administrative Fees:

The commonwealth is covering these fees on a temporary basis during the start-up period.

Investment Option Fees:

Each investment option has its own operating expenses. These fees are deducted by each investment option’s management company before the daily price or performance is calculated. Fees pay for trading of securities within the investment options and other management expenses.

Funds may impose redemption fees and/or transfer restrictions if assets are held for less than the published holding period. Asset allocation funds are generally subject to an operating expense at the fund level, as well as prorated operating expenses of each underlying fund in which they invest. For more information, please refer to the fund fact sheets at www.SERS.pa.gov. Funds are subject to the risks of the underlying funds.

There are additional quarterly fees and/or transaction fees to participate in the Self-Directed Brokerage option; see www.SERS.pa.gov.

Empower Advisory Services:

Investing involves risk, including possible loss of principal.

You could lose money by investing in a money market fund. Although the fund seeks to preserve the value of your investment at \$1 per share, it cannot guarantee it will do so. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund's sponsor has no legal obligation to provide financial support to the fund, and you should not expect the sponsor to provide financial support to the fund at any time.
