Commonwealth of Pennsylvania State Employees' Retirement System

2010 Supplemental Budget Information

Prepared for the House Appropriations Committee

Commonwealth of Pennsylvania **State Employees' Retirement System** 30 North Third Street, Suite 150 Harrisburg, Pennsylvania 17101-1716 www.sers.state.pa.us Telephone: 717-787-9657 FAX: 717-783-7300

February 3, 2010

Members of the House Appropriations Committee

Dear Members:

On behalf of the State Employees' Retirement System (SERS), I am pleased to provide you with the following supplemental information, which may be helpful to you in your budget deliberations.

In 2009 the SERS Fund made a strong recovery from the severe global economic downturn that so adversely affected the Fund in 2008. As detailed at Tab 8, Investment Policy, Objectives and Performance, the Fund earned an estimated 9% return in 2009 (unaudited). This marks the 11th time in the last 15 years that the SERS Fund has outperformed our actuarially assumed rate of return, currently 8%. That 9% gain for the year came despite the fact that the global economic downturn of 2008 extended deep into the first quarter of 2009. Overcoming that negative quarter, the Fund actually gained almost 18% in the final three quarters of the year, leading to the above-expectation performance for the full year. Over the long term, the SERS Fund's actual performance continues to exceed assumptions: the estimated 20-year compounded rate of return is 8.6% and the 30-year return is 9.9%

Because SERS is a mature pension plan -- one with almost as many retired as active members (see Tab 5, Member Services and Demographics) -- and because employer contribution rates are being artificially suppressed by Act 40 of 2003, SERS pays out far more in benefits and expenses each year than it collects in employee and employer contributions. The 2009 payouts exceeded \$2.2 billion, while contributions totaled only \$593 million; the remainder of the payouts necessarily came from Fund assets. Thus while earnings totaled \$3.3 billion, the fund grew by less. The Fund value as of December 31, 2009, stood at \$24.4 billion, up from \$22.8 billion the previous year. Over the past 10 years, SERS has paid out almost \$18.2 billion in benefits and expenses, while investment income (including seven years of gains and three of losses) totaled \$10.0 billion. During that 10-year period, employer and employee contributions, combined, totaled \$4.6 billion (employees, \$3.0 billion; employers, \$1.6 billion), or just over a quarter of payouts.

At Tab 7, Funding Process and Actuarial Status, we report on the plan's funded status, which, on an actuarial basis, stood at 89% as of December 31, 2008. That number certainly will be lower in the next valuation, despite the 2009 investment gain, because, under the statutory smoothing methodology in place for SERS, it will take five years to recognize all of the 2008 losses. Nonetheless, we expect that SERS will continue to be better funded than most other public plans, because those other plans were not as well funded as SERS prior to the recession and suffered similar losses in it.

Tab 7 also addresses future employer funding obligations, including the projected rate "spike" or, more accurately, plateau. Based on SERS' December 31, 2008 actuarial valuation, we project that the employer contribution rate -- now suppressed to the 4% statutory floor -- will rise to 5.9% in the 2010-11 Commonwealth fiscal year, then to 8.8% the next year, and then jump to 28.3% in the 2012-13 "spike" year. Rates are expected to rise further the following year, to a peak of 31.4%, and thereafter remain above 25% through 2025-26. The 2009 valuation will update those projections but we expect the projected rate levels to be substantially the same. We recognize such a steep jump in employer contribution rates will present the Commonwealth with a severe budgetary challenge. We will continue to work with the Legislature and the Administration to address that challenge, while striving to ensure that SERS remains adequately funded in order to meet its long-term obligations.

Additional tabs offer information on, among other topics, Pennsylvania investments and the Commonwealth's Deferred Compensation Program, which the SERS Board also administers.

If you have any questions regarding any of the information in this booklet, please contact Executive Director Leonard Knepp. Thank you in advance for your consideration of SERS' 2010-11 budget request.

Sincerely,

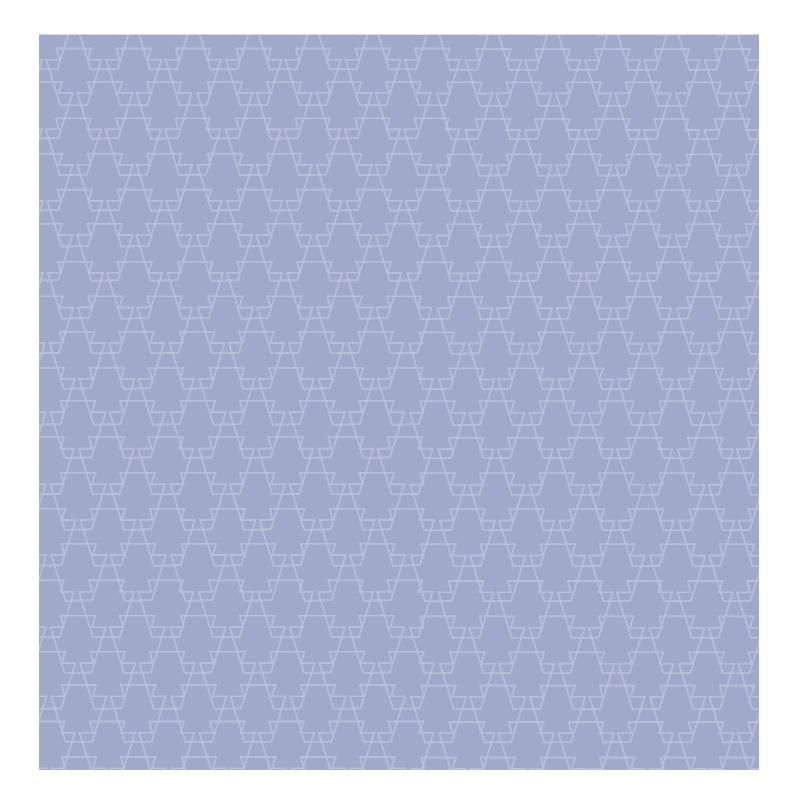

Nicholas J. Maiale Chairman

Organizational Overview

1

Mission, Vision & Guiding Principles

Established in 1923, SERS is one of the nation's oldest and largest statewide retirement plans for public employees, with more than 220,000 members. SERS is among the largest of public and corporate pension funds, with assets of approximately \$24.4 billion as of December 31, 2009.

SERS is responsible for administering the State Employees' Retirement Code in accordance with the expressed intent of the General Assembly and bears a fiduciary obligation to the state employees and retirees who are the plan beneficiaries.

State law provides that the administration of the SERS Fund and the fiduciary responsibility for its management be vested in an 11-member Board. The management of SERS is the responsibility of the Executive Director who, with the approval of the Board, contracts for professional services and employs the staff needed to operate the system.

Mission

The mission of SERS is to provide retirement benefits and services to our members through sound administration and prudent investments.

Vision

By 2014, SERS will have addressed the funding, policy, and operational challenges and implemented programs to address personnel and leadership transitions.

Guiding Principles

- Demonstrate Integrity
- Think Strategically
- Lead Innovation and Improvement
- Develop and Empower Employees
- Share Knowledge
- Focus on Customer Service
- Learn from Mistakes
- Safeguard Information, Facilities and Staff
- Fulfill Fiduciary Obligations

Organization & Operations

The agency's various program functions are administered by staff in SERS' Harrisburg Central Office and through a statewide network of seven Regional Retirement Counseling Centers. Assignment of major agency functions is as follows:

Executive Office: Supports the Executive Director who is the agency's senior staff administrator. Provides direct service to the Chairman of the Board and Board members. Makes arrangements for and conducts administrative functions for all Board meetings. Conducts research and provides agency direction on organizational development, strategic planning, pending retirement issues and actuarial considerations. Includes the **Communications and Policy Office**, which serves a variety of support functions related to communications and legislation. These include preparation and dissemination of retirement-related information and publications, tracking and reporting on retirement legislation, serving as the agency's legislative liaison and handling inquiries from the media, state Legislature and the public.

Office of Finance and Administration: Provides the accounting structure for SERS' \$24.4 billion Fund; oversees all transactions, including payment of member benefits, purchase and sale of investment securities, receipt of employer and employee contributions and investment income, and administration of the agency operational budget. The office also manages agency operations and disaster recovery planning, while reporting to the Board on management of the approximately \$1.8 billion Commonwealth Deferred Compensation Program.

Investment Office: Works closely with the Board to recommend and establish asset allocation, investment policy and investment managers for review and approval by the Board. The office works in tandem with the consultants monitoring the compliance and performance of the outside managers and undertaking research on investment products and investment managers.

Legal Office: Provides counsel to the Board and the agency, including handling administrative hearings involving SERS members, reviewing investment and non-investment-related contracts, and providing legal advice.

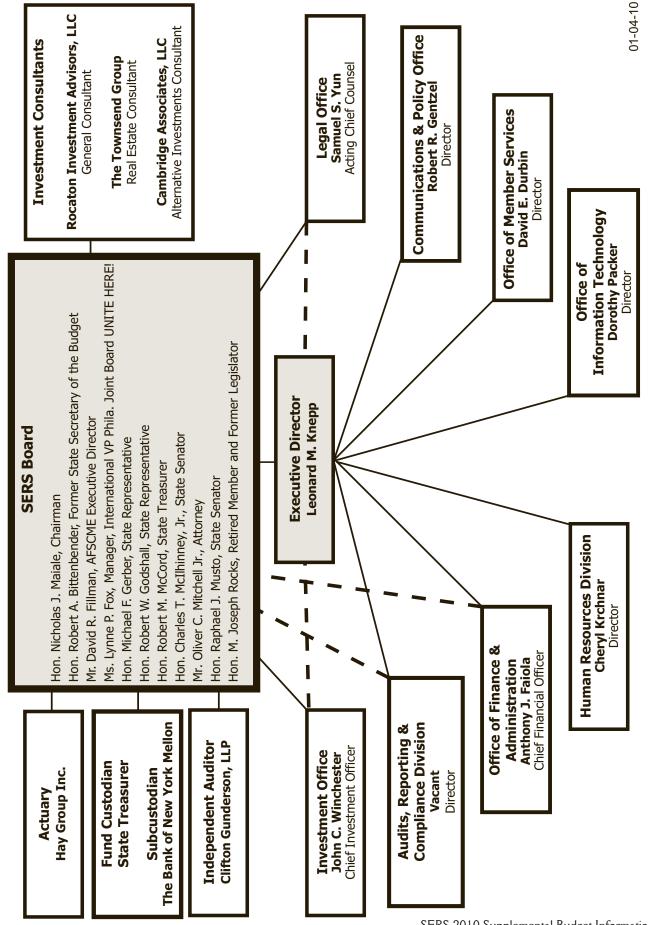

Audits, Reporting and Compliance Division: Provides the Board with the assurance that internal controls are adequate and operating as designed through internal audits of business processes. Coordinates audits performed at SERS by external agencies and auditors. Prepares agency financial and investment reports, performs analysis and compliance reviews of investments and other programs.

Human Resources Division: Responsible for management, organization and development of SERS' human resources.

Office of Information Technology: Provides all computer and technical support for SERS operations, including a Wide Area Network linking the agency's seven Regional Retirement Counseling Centers.

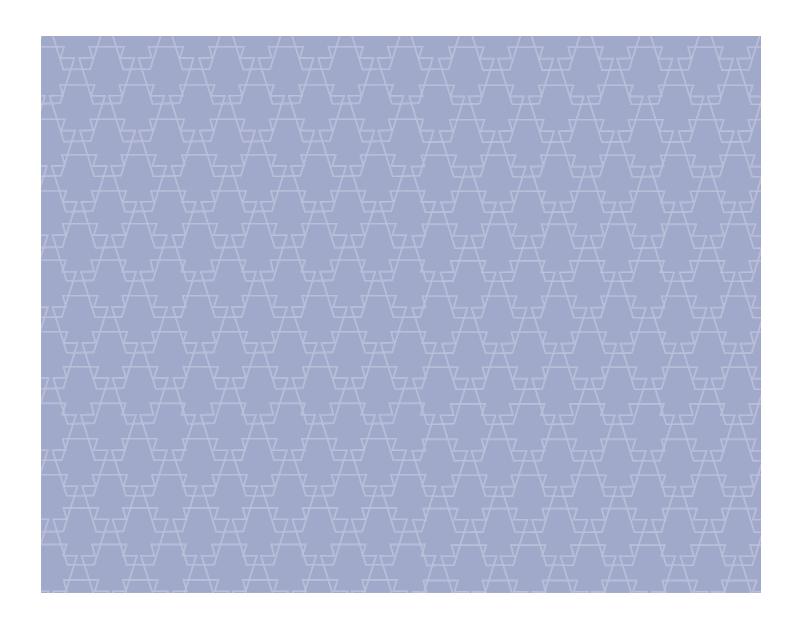

Office of Member Services: Provides individualized counseling and retirement-related seminars through SERS' statewide system of seven Regional Retirement Counseling Centers. Processes member and member-survivor benefit payments and provides membership account services. Researches issues in public pension programs, recommends adoption of new strategies, and performs special retirement-related functions.

2009 Advisory Fees

¹/ Fees paid and accrued by SERS during the period from January 1, 2009, through December 31, 2009, according to SERS records maintained by the Office of Finance and Administration (OFA).

^{2/}The fee data from OFA was divided by SERS' total fund and asset class average values during calendar year 2009 to arrive at the basis point calculations. Alternative Investments were determined based on committed capital during the active stage of the partnership, and on market value during the maturity stage of the partnership to most accurately reflect the calculation of fees for those management services.

Fees to Managers (Non-Budget Appropriation)

SERS employs outside investment managers because of their investment expertise. The managers of SERS' investment portfolio are paid through non-budget appropriation. Their fees are treated as a reduction of the investment revenue of the Fund, rather than as a direct administrative expense. Thus, when investment performance is reported elsewhere in this book, the numbers reported are net of fees - that is, performance after all investment management fees have been paid.

Member Services and Demographics 5

Member Services

The Bureau of Member Services provides a variety of services to SERS active members and annuitants. Following are lists of services provided through the seven Regional Retirement Counseling Centers.

Services to Active Members

- Calculate regular retirement, disability retirement and vesting estimates upon request.
- Provide one-on-one counseling for any member who is considering retiring or terminating service.
- Provide active members with an annual *Member Statement of Account*.
- Provide counseling to deceased members' Beneficiaries or Survivor Annuitants.
- Conduct group information sessions (Question & Answer Sessions, Pre-Retirement and Vestee Seminars).
- Provide resource speakers for various agency or association information sessions.
- Provide estimates and counsel members on the purchase of creditable State and nonstate service.
- Provide information on members' eligibility for retiree health benefits.

Services to Retired Members

- Provide direct deposit forms, federal income tax withholding forms, and change of address forms upon request; and provide information and assistance to complete the forms.
- Provide beneficiary forms and assist members in completing the forms.
- Provide all Annuitants with an annual *Personal Statement of Retirement Benefits*.
- Provide all Annuitants with a **1099-***R* federal tax form each tax year.
- Take information and process change of dependent information on the retiree's Retired Employees Health Program (REHP) coverage.
- Investigate and place stop payment transactions on checks not received by Annuitants after 10 working days.
- Provide resource speakers for group or association informational seminars.
- Receive and process notifications of death and serve as a contact for Beneficiaries and Survivors.
- Provide option change counseling for members when their Designated Survivor predeceases them, the retiree obtains a divorce, or when the retiree marries after the date of their retirement.
- Provide counseling on any change of monthly annuity payment, when applicable.

Regional Retirement Counseling Centers

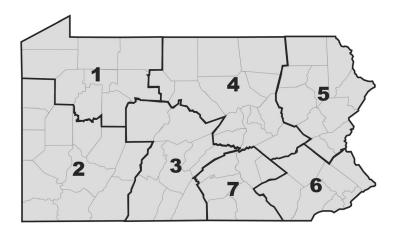

Region 1 Seneca Office Serving Clarion, Crawford, Elk, Erie, Forest, Jefferson, McKean, Venango and Warren counties.

Region 2 Pittsburgh Office Serving Allegheny, Armstrong, Beaver, Butler, Cambria, Fayette, Greene, Indiana, Lawrence, Mercer, Somerset, Washington and Westmoreland counties.

Region 3 State College Office Serving Bedford, Blair, Centre, Clearfield, Franklin, Fulton, Huntingdon, Juniata, Mifflin counties, and active members who are employees of Shippensburg University of Pennsylvania in Cumberland County.

Region 4 Montoursville Office Serving Bradford, Cameron, Clinton, Columbia, Lycoming, Montour, Northumberland, Potter, Schuylkill, Snyder, Sullivan, Tioga and Union counties.

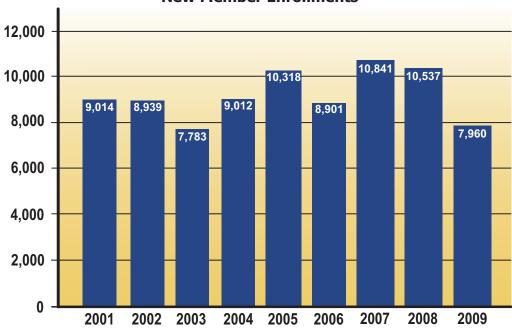

Region 5 Hazleton Office Serving Carbon, Lackawanna, Lehigh, Luzerne, Monroe, Northampton, Pike, Susquehanna, Wayne and Wyoming counties.

Region 6 Bensalem Office Serving Berks, Bucks, Chester, Delaware, Lancaster and Montgomery counties and Philadelphia.

Region 7 Harrisburg Office Serving Adams, Cumberland (except active members who are employees of Shippensburg University of Pennsylvania), Dauphin, Lebanon, Perry and York counties.

Beneficiary/Survivors	76.0	75.0	75.0	74.9	8,308	8,654	9,094	9,481

Since 2006 the average superannuation pension is up 13%.

Legislation 6

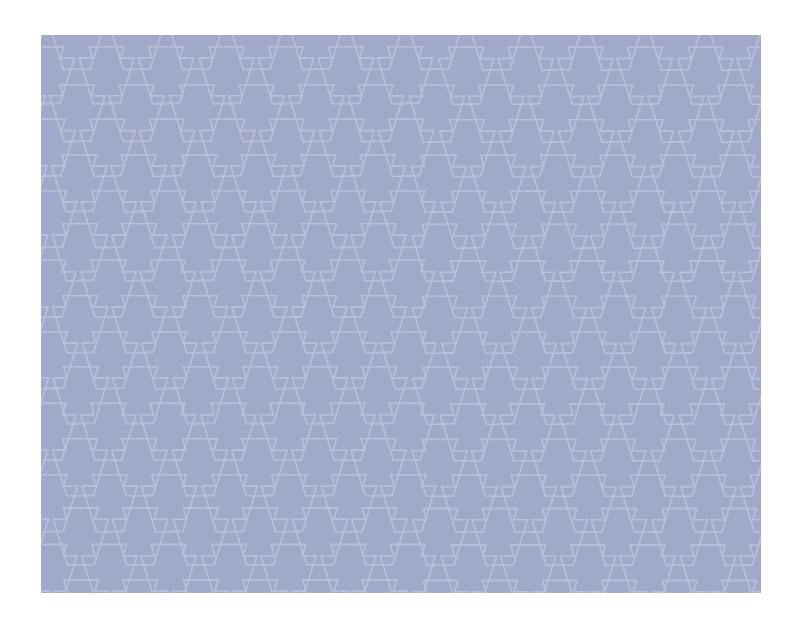

Legislation

Legislation Enacted During 2009

No amendments to the Retirement Code (Title 71) became law during 2009.

Funding Process and Actuarial Status 7

Funding Process & Actuarial Status

SERS administers both a defined benefit plan (Fund) and a defined contribution plan (the Deferred Compensation Program). This report focuses on the three sources of funding for the SERS defined benefit plan: employee contributions, which are fixed, and employer contributions and investment earnings, both of which are variable. Also included here is an explanation of supplemental annuity ("Cost Of Living Adjustment" or "COLA") funding. *See below illustration, Sources of SERS' Funding*.

What is a Defined Benefit Pension Plan?

A defined benefit pension plan provides benefits that are determined by a fixed benefit formula that takes into account the employee's length of service, age, compensation, and a legislatively determined accrual rate. Actuarial calculations are used to establish the amount of contributions required to provide those benefits. The law that created SERS, the State Employees' Retirement Code (Retirement Code), provides that the Commonwealth of Pennsylvania must guarantee payment of SERS benefits.

In contrast, the Commonwealth's Deferred Compensation Program (Internal Revenue Code Section 457 (b) plan) is a defined contribution plan, which provides supplemental benefits based on the member's account balance at retirement or time of distribution. Participation in the Deferred Compensation Program is voluntary, and employers do not contribute to it. While this report primarily discusses the funding of SERS' defined benefit plan, you will find additional information on the Deferred Compensation Program in Tab 12.

Actuarial Process

The ultimate cost of the Fund is determined by the total benefits to be paid to retired employees throughout their lives and to Beneficiaries of deceased members. This cost cannot be precisely determined prospectively because the commencement and duration of benefits for Active employees and the duration of future benefit payments for Retirees are uncertain. Therefore, pension cost determinations are based on actuarial assumptions and actuarial cost methods, which are used to establish total cost and assign that cost to periods of time. For example, the amortization period of actuarial gains and losses is established by statute. Actuarial assumptions, gains and losses vary over time and have a significant impact on the determination of an appropriate employer contribution rate.

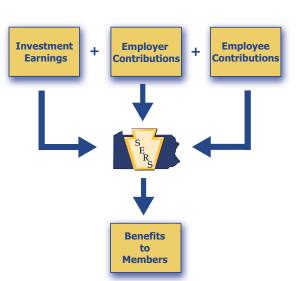

To provide a basis for predicting future costs, SERS' actuary reviews economic and demographic experience over fiveyear periods. That experience is used to develop actuarial assumptions about future salary growth, investment returns, and demographic factors such as rates of retirement and death.

On an annual basis, the actuary conducts a valuation of the Retirement Fund. Based upon the latest member demographic

data, the actuary determines the value of expected future obligations and compares it to the value of the Retirement Fund's assets. Based on this valuation, the actuary recommends employer contribution rates to the State Employees' Retirement Board (Board). The Retirement Code vests the Board with the authority to establish the employer contribution rates, and the Board uses the annual actuarial valuation to do so.

Interrelationship of Funding Sources

The framers of the Retirement Code designed SERS as a system that, to remain financially sound, would require regular funding each year from each of the three sources shown at right: employees, employers and investment earnings. Currently, most employees contribute 6.25% of salary, a rate set by statute. The currently assumed annual rate of return on investments is 8%. (The Board establishes the assumed rate based on advice from the staff, investment consultant and actuary; in April 2009 the Board revised the assumed rate down from 8.5% to 8%, believing the lower number to be a more

Sources of SERS' Funding

realistic long-term assumption given the current market environment and the Fund's anticipated future cash flow needs). The "employer normal cost" -- the amount employers would pay if the assumed rate of return and all other actuarial assumptions proved to be precisely correct and there were no unfunded liability -- currently is 9.51% of payroll.

Obviously, it is beyond the power of the Board to know in advance how much investments will earn in any given year. Actual returns can vary widely; in fact, it is highly unlikely that the investment returns will precisely match the assumed return in any given year. The Retirement Code recognizes this reality and deals with it by creating a linkage between investment earnings and employer contributions. It does so by requiring the Board to adjust the employer contribution rate each year based on actual investment returns and actuarial experience. When investment earnings exceed the 8% actuarially assumed return, the Board may be able to reduce the employer contribution rate. Conversely, when investment earnings fall short of assumptions, the Board may find it necessary to increase the employer contribution rate. Since the employee rate is fixed by statute, it does not change from year to year, regardless of investment gains or losses. The employer share, however, can and does vary widely. The employer share has recently been as low as zero and is currently 4% (the statutory floor). But as discussed in more detail below, the era of extremely low employer contribution rates is ending. Rates are expected to begin climbing this year, jump sharply upward in 2012 (the much-discussed pension "spike"), peak the following year and remain high for years thereafter.

The Fund's investment performance returned to positive territory in 2009, with an estimated return of 9% (unaudited). As Chairman Maiale notes in his cover letter, this marks the 11th time in the last 15 years that the Fund's earnings have not only been positive but also have exceeded the assumed rate of return.

Because the Fund is invested in the global financial markets, its performance tends to reflect trends in the global economy. From 1995 through 1999, the Fund experienced investment rates of return ranging from a low of 15.9% to a high of 25.2%, and earned high of 25.2%, and earned its best ever five-year annualized return of close to 19%. Returns fell into

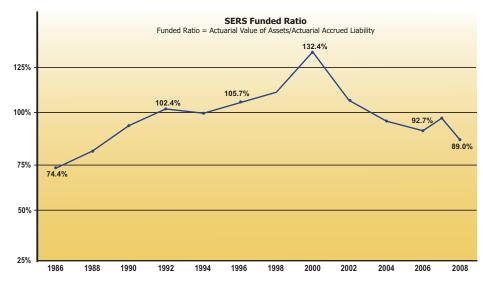

barely positive territory in 2000, followed by two years of negative returns in the 2001-02 bear market. The Fund then posted exceptionally strong returns over the 2003-07 period, achieving a five-year annualized return of 17.5%. The global economic crisis and resulting recession struck the Fund hard in 2008, however, resulting in a return of minus 28.7% and essentially erasing the prior two years' earnings. *See above illustration, SERS Investment Performance*. The global recession dragged into the first quarter of 2009, pushing the Fund down another 7.5%, but as the markets began to recover over the subsequent three quarters, so did the Fund. The Fund's 9% (unaudited) performance for the year is the net result of the negative first quarter plus an almost 18% gain over the last three quarters.

Funding Source 1: Investment Earnings

In order to smooth out fluctuations in the market value of assets, which could otherwise result in volatile year-to-year changes in employer contribution requirements, SERS and its actuary rely upon the actuarial value of assets (not the market value) for funding calculations. Over a five-year period, the actuarial value of assets gradually recognizes the differences between total investment

return and the assumed annual rate of return. By allocating the investment rate of return over a five-year period, SERS recognizes only 20% of the asset gain/loss (the difference between the actual return and the actuarial assumption at 8%), which occurred during the year immediately preceding the actuarial valuation date, with the remainder to be recognized (at an additional 20% per year) over the following four years. As a result, when investment earnings trends change, there is a delayed effect on employer contribution rates. Thus while the Fund returned to positive territory in

2009, four-fifths of the 2008 losses remain to be recognized over this and the next three years.

Funded Position

The funded position of the System is measured by its funded ratio -- the actuarial value of assets, divided by the actuarial accrued liability. The most recent actuarial valuation, as of December 31, 2008, showed SERS to be 89% funded. That will change, however, in the 2009 and subsequent valuations as the remainder of 2008's deep negative return is smoothed in and as ongoing benefit payouts, far in excess of contributions, are factored into the actuarial funding calculation. On a market value basis, SERS was 66.2% funded as of December 31, 2008; we expect the 2009 and subsequent actuarial valuations will show the actuarial value of assets moving closer to the current market value.

In addition to the investment losses of 2008 and 2001-02, the System's underfunded status also is attributable in part to Act 2001-9 and the 2002-03 COLA, both of which significantly increased the Fund's actuarial accrued liabilities, and to changes to funding methodologies – most recently Act 2003-40 – which are temporarily suppressing employer contribution rates, depriving the System of revenue. *See above illustration, SERS Funded Ratio*.

Additional points of note:

- SERS used an actuarially assumed rate of return of 8.5% from 1995 through 2008; this rate is reviewed annually for reasonableness, based on current economic conditions. The Board's 2009 review led to a conclusion that reasonableness dictated lowering the assumed rate to 8%.
- SERS has exceeded the actuarially assumed rate of return in 11 of the past 15 years.
- The SERS Fund historically has outperformed its assumed rate and on a long-term basis continues to do so. Even with the 2008 losses, the 20-year estimated compounded rate of return is 8.6% and the 30-year return is 9.9%.

Funding Source 2: Employer Contributions

The Board establishes the employer contribution rate annually, based on the actuary's recommendation. The employer contribution rate is expressed as a percentage of payroll. Different service classifications of SERS members require different contribution rates.

The total employer contributions are made up of two parts: the normal cost; and a contribution for the unfunded actuarial liability (UAL), if any. The normal cost is the cost of SERS benefits to be earned in the coming year. Currently,

SERS 2010 Supplemental Budget Information - 33

the normal cost is 9.51%. The UAL is the amount of the actuarial accrued liability in excess of the actuarial value of assets. In theory, if the UAL were zero, and all of the actuarial assumptions turned out to be correct, and there were no amendments to the Retirement Code, the normal cost contributions would be sufficient to fund the liabilities for participants. However, the normal cost alone usually will not fund the Fund's total liabilities. The total of the liabilities that will not be funded by future normal cost is the unfunded actuarial accrued liability.

The UAL is amortized – that is, funded – in installments. Act 2003-40 changed the funding period for most, but not all, of SERS' actuarial liabilities from 10 years to 30 years. This had the effect of temporarily suppressing rates for 10 years, enabling the Commonwealth to avoid making any payments toward the unfunded liability until 2012. Absent the rate suppression dictated by Act 40, the UAL would have been paid off incrementally over the entire 30-year amortization period. Instead, having postponed paying the UAL – or even the full employer normal cost – for 10 years, the UAL is now even higher and will have to be paid over 20 years. Act 40 also set a series of floor contribution rates, with the highest, and final, floor being 4% for the 2006-07 state fiscal year. Act 2007-8 established 4% as the permanent employer contribution rate floor for SERS.

Prior to the enactment of Act 40, it was projected that if nothing was done, the SERS employer rate would start a steep climb in 2003-04 and would peak, in 2012, at 28.6% of payroll. Act 2003-40 changed the amortization schedule in a way that was intended to still result in regular annual employer rate increases in advance of 2012, but at lower levels, and to produce a somewhat lower 2012 peak. That was achieved by pushing payments into the future. Subsequent to the enactment of Act 40, SERS produced, as previously noted, five years of exceptionally strong investment returns. That brought the projected 2012 spike down into single digits.

The downward trend in rate projections was sharply reversed, however, as a result of the 2008 investment losses, exacerbated by the fact that annual payouts for benefits and expenses far exceed annual employer and employee contributions. When investment earnings are strong, the Fund can grow even while paying out billions each year in benefits. When earnings are weak or negative, payouts reduce the Fund balance. *See below table, Additions and Deductions to Plan Net Assets.* The table documents Chairman Maiale's statement, in his cover letter accompanying this submission, that "Over the past 10 years, SERS has paid out almost \$18.2 billion in benefits and expenses, while investment income (including seven years of gains and three of losses) totaled \$10.0 billion. During that 10-year period, employer and employee contributions, combined, totaled \$4.6 billion (employees, \$3.0 billion; employers, \$1.6 billion), or just over a quarter of payouts."

Additions and Deductions to Plan Net Assets

Calendar Years (\$ millions)

	Employer	Employee	Total	Investment	Benefits and	
Year	Contributions	Contributions	Contributions	Income	Expenses	Market Value
2009 1/	\$245	\$348	\$593	\$3,335	\$(2,288)	\$24,436
2008	235	337	572	(11,061)	(2,231)	22,796
2007	244	334	578	5,246	(2,361)	35,516
2006	196	318	514	4,730	(1,943)	32,053
2005	148	306	454	3,623	(1,966)	28,752
2004	107	310	417	3,568	(1,880)	26,641
2003	68	308	376	4,936	(1,656)	24,536

2000	168	232	400	585	(1,198)	27,880
10 Year Total	\$1,539	\$3,037	\$4,576	\$10,006	\$(18,239)	*

^{1/} 2009 Unaudited

* Ten year net additions and deductions were \$(3,657).

While 2009 Fund earnings were positive and slightly exceeded the assumed rate of return, those gains equaled only about a third of 2008's losses. The UAL which stood at \$3.8 billion as of December 31, 2008, is estimated to increase to \$5.8 billion as of December 31, 2009 (with the precise amount to be determined by the 2009 valuation) and is expected to grow as the 2008 loss is actuarially smoothed in. The statutory funding methodology requires that the severe shortfall be made up through future increases in the employer contribution rate.

The 2008 valuation projects that the current 4% employer contribution rate will rise to 5.9% effective July 1 of this year, climb further to 8.8% (which is still below the employer normal cost) effective July 1, 2011, then spike upward to 28.3% effective July 1, 2012. The projected maximum rate would be reached the following year, 2013-14, at 31.4% of payroll. Rates are projected to decline thereafter, but only very gradually, remaining above 25% through the 2025-26 fiscal year. *See below table, SERS Projected Funded Status & Employer Contributions* for more detail on projections deriving from the 2008 valuation. The 2009 valuation will result in updated projections but they are not expected to change materially.

	Payout Projection	Funding Status Projection		Employer Contribution Projection			
- Calendar Year	Benefits & Expenses (\$ billions)	Funded Ratio	UAL (\$ billions)	Fiscal Year	Employer Contribution Rate	Expected FY Payroll (\$ millions)	Expected FY Contribution (\$ millions)
2008	\$2.2	89.0%	\$3.8	09/10	4.0%	\$5,660.3	\$226.4

SERS Projected Funded Status & Employer Contributions Assuming 8% investment return

In discussing projected rates, it must be remembered that the projections are based not only on historical data but also on various assumptions, and that reality almost certainly will diverge from the assumptions. Thus the projected 2012 spike has changed considerably over time, and will continue to change in the intervening years. Perhaps most importantly, the projections assume that SERS will earn exactly 8% on investments each year. Earnings in excess of that assumption reduce the projected spike, as we have seen; earnings of less than the assumption push the projection upward. Likewise, any further change in the return assumption itself would result in changes to the projections. In addition, a projection for any given future year assumes that in all intervening years, employers will have paid at the rates currently being projected for those years; any deferral of payments in the near term would further drive up projected rates in the long term.

Employer Contribution Provisions

- Employer contributions to SERS are required both to fund the employer normal cost and to amortize the UAL.
- The current 4% employer contribution rate is less than half the employer normal cost.
- The employer contribution rate actually fell to zero for two years prior to the imposition of statutory floors.
- The current statutory funding methodology will require a dramatic increase in employer contribution rates beginning in July 2012.
- Rates are expected to begin climbing this year, spike sharply upward in the 2012-13 fiscal year but not peak until the following year.
- After peaking in 2013, rates are projected to remain high for decades thereafter.

Among the many SERS benefit costs that the actuary values each year is the cost of the Retirement Code's Option 4. Under Option 4, a retiring SERS member may elect to receive a refund of all or part of that member's Accumulated Deductions (employee contributions plus 4% statutory interest) and receive a reduced annuity. Members who elect Option 4 receive a proportionally reduced benefit. Still, election of Option 4 increases the cost to the Fund because the refund is calculated at 4% interest whereas it is assumed that, if the Accumulated Deductions were left in the Fund, they would earn 8% interest. More than 90% of retirees choose the Option 4 refund.

Funding Source 3: Employee Contributions

The simplest component of the funding mechanism is employee contributions. Pursuant to the Code, SERS members pay a statutorily determined contribution rate. Most SERS members contribute to the Fund at the rate of 6.25% of their gross compensation. Commonwealth employees made approximately \$348 million in contributions in 2009.

Explanation of SERS Supplemental Annuities ("Cost of Living Adjustments" or "COLAs")

The Retirement Code contains procedures, definitions and actuarial requirements for calculating benefits. The Retirement Code does not provide for an automatic annual inflation-based COLA as Social Security does. Instead, the Legislature has from time to time voted to grant increases in benefits for retirees. While commonly referred to as "COLAs," these supplemental annuities (as they are properly known) are not dictated by any inflation-based formula. The amount and structure of each supplemental annuity is entirely within the discretion of the Legislature, and each requires new legislation. Also, because the Retirement Code does not provide for advanced funding or actuarial reserves for COLAs, COLAs historically have been funded after they have been granted. COLAs are paid from future employer contributions.

Over the past 40 years, the Pennsylvania General Assembly has legislated eight general COLAs effective in 1968, 1974, 1979, 1984, 1989, 1994, 1998, and 2002/2003. Generally, the amount of the COLA has been determined by a formula that accounts for years of service, years in retirement and inflation since the previous COLA.

COLAs generally have been given to retirees who have reached either their Normal Retirement ("superannuation") Age, (60 for most classes but 50 for some) or the age at which the member would have been credited with 35 years of credited service, and all disabled retirees. COLAs are payable to early retirees once they reach Normal Retirement Age. The Pennsylvania Constitution prohibits paying COLAs to Beneficiaries of deceased members or Survivor Annuitants.

Funding Process & Actuarial Status (continued)

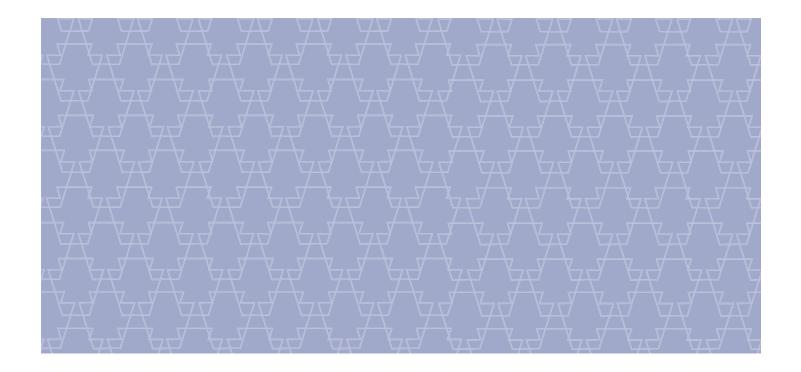

COLAs increase the Fund's liabilities (as a result of the increases in benefits paid to members). However, the usual SERS funding mechanism does not provide a source from which to pay for the increased benefits. Therefore, when the actuary determines the cost of a COLA, the liability for the COLA is established in SERS' Supplemental Annuity Account. Under current law, the COLA liability must be amortized over 10 years, with the amortization payments being included in the employer contribution rate. Thus, the money to pay for COLAs ultimately comes from increased future employer contributions.

Funding of Supplemental Annuities

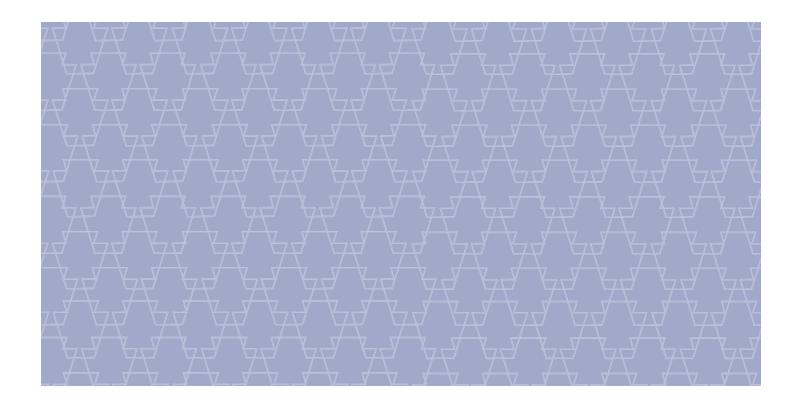

- Because the Retirement Code does not provide for automatic COLAs or the necessary funding, each new supplemental annuity must be legislated individually.
- Every supplemental annuity or COLA enacted since 1968 required an amendment to the Retirement Code and added a new liability to the Fund.

Benefits to Members

- At retirement, SERS calculates the actuarial value of the annuity to be paid over the expected lifetime of the member and transfers the balance of the member's Accumulated Deductions, plus reserves from the State Accumulation Account, into the annuity reserve accounts to pay that lifetime benefit.
- The annuity reserve accounts contain funds for all current retirees and Beneficiaries based on the amount of the original benefit at retirement.
- No funds are in the annuity reserve accounts to pay for future COLAs.

Investment Policy, Objectives and Performance 8

Investment Policy

The Board originally adopted a formal *Statement of Investment Policy* in 1979. It has been revised periodically, to reflect and incorporate legislative changes governing investments and amendments to policies and procedures guiding the investment of the defined benefit portfolio. The latest *Statement of Investment Policy* was adopted in 2009. The purpose of the statement is to formalize the Board's investment objectives, policies, and procedures; to establish guidelines for the investment of Fund assets, and to define the duties and responsibilities of the various entities involved in the investment process. The major elements of the statement are:

- As fiduciaries, the Board will exercise that degree of judgment, skill and care under the circumstances then prevailing which investors of prudence, discretion and intelligence, who are familiar with such matters, exercise in the management of their own affairs in investment matters;
- The Fund's overall investment objective is to provide a total rate of return, over full economic cycles, which exceeds the return of a fully diversified market portfolio within each asset class. The Board seeks to meet this objective within acceptable risk parameters through adherence to a policy of diversification of investments by type, industry, quality and geographic location;
- The Board employs an investment staff and also contracts with investment advisors and consultants to provide expert, professional judgment in all investment decisions;
- An annual strategic investment plan is prepared to establish the allocation of funds among investment advisors and categories of assets during the year;
- Objectives are established for each category of assets used by the Fund's investment advisors to provide a framework for monitoring quality, diversification and liquidity;
- SERS is committed to promoting and improving good corporate governance practices of companies within the portfolio; and
- Where investment characteristics, including yield, risk and liquidity are equivalent, the Board's policy favors investments which have a positive impact on the economy of Pennsylvania.

Investment Objectives

To assure an adequate accumulation of reserves in the Fund at the least cost to the citizens of the Commonwealth and to provide some protection against the erosion of principal by inflation, the long-term investment objectives of the Fund, are:

- Achieve a net total return equivalent to the actuarial return assumption, or preferably in excess of this rate over market cycles in order to improve the funded ratio of the Fund through investment earnings.
- Achieve in Global Stock a total return that exceeds the total return of the MSCI World Index;
- Achieve in U.S. Stock a total return that exceeds the total return of the Russell 3000 Index;
- Achieve in Non–U.S. Stock a total return that exceeds the total return of the SERS Custom International Stock Benchmark;
- Achieve in the stand alone Absolute Return Strategy a total return that exceeds the SERS Custom Absolute Return Benchmark;
- Achieve in the Fixed Income asset class a total return that exceeds the total return of the SERS Custom Fixed Income Benchmark;
- Achieve in the Real Estate asset class a total return that exceeds the total return of the Townsend Stylized Benchmark;
- Achieve in the Private Equity asset class a total return that exceeds the Cambridge Private Equity Benchmark;
- Achieve in the Venture Capital asset class a total return that exceeds the Cambridge Venture Capital Benchmark;
- Achieve in Inflation Protection a total return that exceeds the total return of the SERS Custom Inflation Protection Benchmark;
- Achieve in the Cash asset class a total return that exceeds the total return on U.S. Treasury Bills (90 days);

Total return includes income and both realized and unrealized gains and losses and is computed on market value. The Board seeks to meet these objectives within acceptable risk parameters through adherence to a policy of diversification of investments by type, industry, investment manager style and geographic location.

Asset Allocation Trend

Prudent Investor Investment Standards

The Board's investment authority is governed by the "prudent investor" standard as set forth in Title 71, Pennsylvania Consolidated Statutes, Section 5931(a). Enactment of the "prudent investor" standard in Act 1994–29 and the 2008 asset/liability study completed by Rocaton Investment Advisors and the SERS Investment Staff are the foundation of SERS' investment strategy. With "prudent investor" investment authority, SERS is able to pursue a broader array of investment opportunities that enhance the ability to achieve reasonable rates of return while maintaining risk at acceptable levels. The asset/liability study demonstrated that the prudent application of this expanded authority should result in a more efficient portfolio that better serves the needs of SERS.

Total Fund Asset Allocation

SERS develops an annual strategic investment plan which provides direction for the SERS' investment program. The **2010** *Annual Strategic Investment Plan* will be implemented over a period of five years. The Fund's asset allocation strategy will evolve over this timeframe until the long-term targets for each asset category are achieved by the end of the year 2014.

Investment Program Summary

as of December 31, 2009 - (unaudited)

The assets of SERS are administered by the Board. The Board adopted an investment policy (Policy) that incorporates the provisions of the Retirement Code which govern the investment of SERS' assets. The Policy provides investment objectives and guidelines. SERS' investment plan is reviewed and updated annually for strategic asset allocation purposes, as well as for diversification needs within each asset class.

Market Exposure as of December 31, 2009: SERS' assets had an unaudited market exposure of approximately \$24,435.6 million.

* Numbers may not add due to rounding.

Number of Investment Advisors: Many advisors manage multiple portfolios across and within asset classes. SERS had 192 unique external investment advisory firms managing portfolios. There are 29 advisors in the public markets domain, 158 in private markets, and five in both, public and private markets. Of these, 18 advisors manage 40 portfolios across asset classes.

- 2 Global Stock advisors
- 8 U.S. Stock advisors
- 7 Non U.S. Stock advisors
- 6 Absolute Return advisors
- 13 Fixed Income advisors
- 1 Cash advisors
- 3 Inflation Protection advisors
- 26 Real Estate advisors
- 57 Venture Capital general partners managing limited partnerships
- 91 Private Equity general partners managing limited partnerships

Number of Investment Portfolios: SERS had 457 investment portfolios. Of these, 49 portfolios are public market investments and 408 cover private markets.

- 2 Global Stock portfolios
- 10 U.S. Stock portfolios
- 12 Non U.S. Stock portfolios
- 6 Absolute Return portfolios
- 15 Fixed Income portfolios
- 1 Cash portfolios
- 3 Inflation Protection portfolios
- 60 Real Estate portfolios
- 120 Venture Capital limited partnership interests
- 228 Private Equity limited partnership interests

In addition, Board appointments included three new fixed income advisors.

Global Stock Investments Summary

as of December 31, 2009 - (unaudited)

Global stock is a component of the stock asset class, one of six major asset classes which SERS uses to diversify the investments of the Fund. SERS' investment plan diversifies stock investments while maintaining a reasonable risk posture relative to the benchmarks. SERS contracts with external investment advisors to manage the portfolios.

Investment Objective: Stock investments are employed by the Fund primarily because their expected return premiums versus inflation will, if realized, help preserve and enhance the real value of the Fund over long periods of time. The global stock accounts are managed on a total return basis.

SERS' long-term investment objective for the global stock component of the stock asset class is to achieve a total return, net of fees, that exceeds the total return of the MSCI World Index.

SERS' 2009 Investment Plan targets an allocation of 5.0% of Fund assets to global stocks.

Market Exposure as of December 31, 2009: Global stock had a \$831.5 million market exposure, 3.4% of the total Fund's \$24,435.6 million.

Number of Investment Advisors: SERS had contracts with two external investment advisors.

Number of Investment Portfolios: SERS had two global stock portfolios managed by two investment advisors.

Type of Investment Portfolios: As of December 31, 2009, SERS global stock allocation was invested in large/midcapitalization strategies.

U.S. Stock Investments Summary

as of December 31, 2009 - (unaudited)

U.S. Stock is a component of the stock asset class, one of six major asset classes which SERS uses to diversify the investments of the Fund. SERS' investment plan diversifies stock investments while maintaining a reasonable risk posture relative to the benchmark. SERS contracts with external investment advisors to manage portfolios.

Investment Objective: Stock investments are employed by the Fund primarily because their expected return premiums versus inflation will, if realized, help preserve and enhance the real value of the Fund over long periods of time. The U.S. stock asset class is managed on a total return basis.

SERS' long-term investment objective in the U.S. Stock asset class is to achieve a total return, net of fees, that exceeds the total return of the Russell 3000 Index.

Stock investments shall include, but not be limited to, publicly traded securities which provide SERS with an equity interest, (e.g., common stock, preferred stock, convertible preferred stock, and convertible bonds); as well as S&P 500 Index swaps that provide S&P 500 Index returns.

SERS' **2009** *Investment Plan* targets a long-term allocation of 21.0% of assets to U.S. Stock, 16.8% of the Fund to large cap and 4.2% of the Fund to mid/small cap, approximating the composition of the Russell 3000 Index.

The large cap U.S. stocks, benchmarked to the S&P 500 Index, uses: S&P 500 Index swaps, index funds, a fund of hedge funds, and an enhanced S&P 500 Index strategy. The mid/small cap U.S. stocks, benchmarked to the Russell 2500 Index, uses an index fund, and active strategies benchmarked to the Russell Midcap Index, the Russell 2500 Index, and the Russell Microcap Growth Index.

Market Exposure as of December 31, 2009: U.S. Stock had a \$2,730.4 million market value, 11.2% of the total Fund's \$24,435.6 million.

Number of Investment Advisors: SERS had contracts with eight external investment advisors.

Number of Investment Portfolios: SERS had 10 U.S. Stock portfolios managed by the eight investment advisors.

Type of Investment Portfolios: As of December 31, 2009, 8.1% of SERS Fund was in large cap U.S. stocks, and 3.1% of SERS Fund was in mid/small cap U.S. stocks.

Non-U.S. Stock Investments Summary

as of December 31, 2009 - (unaudited)

Non-U.S. Stock is a component of the stock asset class, one of six major asset classes that SERS uses to diversify the investments of the Fund. SERS' investment plan diversifies stock investments while maintaining a reasonable risk posture relative to the benchmarks. SERS contracts with external investment advisors to manage portfolios.

Investment Objective: Stock investments are employed by the Fund primarily because their expected return premiums versus inflation will, if realized, help preserve and enhance the real value of the Fund over long periods of time. The Non-U.S. Stock asset class is managed on a total return basis.

SERS' long term investment objective for the Non-U.S. Stock component of the stock asset class is to achieve a total return, net of fees, that exceeds the total return of the SERS Custom International Stock Benchmark (66.3% developed large/mid, 11.7% developed small, 22.0% emerging markets).

SERS' **2009** *Investment Plan* targets a long-term allocation of 21.0% of assets to Non-U.S. Stock, 14.4% of the Fund to large/mid cap stocks in developed markets, 2.6% of the Fund to small cap stocks in developed markets, and 4.0% of the Fund to stocks in emerging markets.

The large/mid cap stocks in non-U.S. developed markets, benchmarked to the MSCI EAFE Index, uses indexed products and active strategies. The small cap stocks in non-U.S. developed markets, benchmarked to the MSCI EAFE Small Cap Index, uses active strategies. The emerging markets stocks allocation is benchmarked to the MSCI Emerging Markets Index and uses an MSCI Emerging Markets Index fund as well as active strategies.

Market Exposure as of December 31, 2009: Non-U.S. Stock had a \$2,682.8 million market exposure which was 11.0% of the total Fund's \$24,435.6 million.

Number of Investment Advisors: SERS had contracts with seven external investment advisors.

Number of Investment Portfolios: SERS had 12 accounts managed by the seven investment advisors.

Type of Investment Portfolios: As of December 31, 2009, 6.6% of total Fund assets were allocated to large/mid cap stocks in non-U.S. developed markets; 1.4% of total Fund assets were allocated to small cap stocks in non-U.S. developed markets; and 3.0% of total Fund assets were allocated to emerging markets.

Absolute Return Strategies Investments Summary

as of December 31, 2009 - (unaudited)

SERS Absolute Return Strategies are used to diversify the investments of the Fund. This mandate is expected to enhance the Fund's overall risk-adjusted profile, thereby increasing the Fund's long-term efficiency, as measured by the Fund's expected return per unit of risk (information ratio). SERS contracts with external fund-of-hedge funds (FOHF) investment advisors to manage these portfolios.

Investment Objective: SERS Absolute Return Strategies are intended to produce uncorrelated diversified return streams in the portfolio to help preserve and enhance the real value of the Fund over long periods of time. SERS Absolute Return Strategies are managed on a total return basis.

SERS' long-term investment objective for the Absolute Return Strategies is to achieve a total return, net-of-fees, that exceeds SERS Custom Absolute Return Benchmark.

SERS' 2009 Investment Plan targets a long-term allocation of 9.0% of Fund assets to Absolute Return Strategies.

Market Exposure as of December 31, 2009: Absolute Return Strategies had a \$5,555.8 million market value, approximately 22.7% of the total Fund's \$24,435.6 million.

Number of Investment Advisors: SERS had contracts with six external investment advisors, but is in the process of redeeming portfolios in order to rebalance the Fund towards SERS 9.0% long-term allocation.

Number of Investment Portfolios: SERS had six Absolute Return Strategies portfolios managed by the six FOHF investment advisors.

Type of Investment Portfolios: As of December 31, 2009, SERS' Absolute Return Strategies were globally diversified across all major asset classes, including exposure to eight major strategies and 21 sub-strategies.

	Investment Advisor	Investment Style	*Market Exposure as of 12/31/09 (\$ millions)

Fixed Income Investments Summary

as of December 31, 2009 - (unaudited)

Fixed Income is one of six major asset classes that SERS uses to diversify the investments of the Fund. The SERS' investment plan diversifies Fixed Income investments and strategies. SERS contracts with external investment advisors to manage portfolios.

Investment Objective: The Fixed Income asset class is employed by the Fund because of its ability to generate current income from interest payments, increase the value of the Fund through the reinvestment of those interest payments, serve as a hedge against disinflation and/or deflation, and to help diversify the overall Fund. The Fixed Income asset class is managed on a total return basis.

In the Fixed Income asset class, SERS' long-term investment objective is to achieve a total return, net of fees, that exceeds the total return of the SERS Custom Fixed Income Benchmark which is comprised of the Barclay's Aggregate, the Custom Intermediate TIPS, the Citigroup High Yield Market and J.P. Morgan Emerging Market Bond indices.

SERS' **2009** *Investment Plan* targets a long-term allocation of 15.0% of assets of the total Fund to the Fixed Income asset class. Of this amount, 40.0% is targeted to the core strategies and 60.0% to specialty strategies (high-yield and emerging market debt).

Market Exposure as of December 31, 2009: Fixed Income had a \$2,903.2 million market value, 11.9% of the total Fund's \$24,435.6 million.

Number of Investment Advisors: SERS had contracts with 13 external investment advisors.

Number of Investment Portfolios: SERS had a total of 15 portfolios within the Fixed Income asset class managed by the 13 investment advisors.

Type of Investment Portfolios: The Fixed Income asset class is divided into core and specialty segments.

Core: Core portfolios invest in relatively liquid, high quality, fixed income securities with intermediate term durations that meet return, disinflation/deflation, high quality liquidity and diversification needs of the Fund. SERS had two actively managed core bond portfolios; one Custom Intermediate Duration Treasury Inflation Protection (TIPS) portfolio and one portfolio indexed to Barclay's Capital Credit. The two actively managed account benchmarked to the Barclay's Capital Aggregate Index. The combination of core portfolios represented 34.1% of the asset class.

Specialty: The specialty strategy portfolios (high-yield, emerging market debt, subordinated debt, mezzanine debt, and bank loan structured credit) focus on debt instruments offering higher return premiums and different risk characteristics than core fixed income securities. SERS has four corporate high yield portfolios with a market value of \$622.0 million, one high yield commercial mortgage-backed securities portfolio with a market value of \$240.5 million, one structured credit portfolio with a market value of \$63.9 million, and six emerging market debt portfolios with a market value of \$985.7 million. The specialty portfolios represent 65.9% of the asset class.

SERS Fixed Income Investments

*Includes securities and cash that the manager had available for investment. Numbers may not add due to rounding.

Cash Investments Summary

as of December 31, 2009 - (unaudited)

Historically, the Cash asset class has been employed by the Fund to provide for SERS' liquidity needs as well as accumulate funds for future investment.

The asset class emphasizes the use of higher credit quality debt instruments which are liquid and have short maturities and durations, or which have floating rates and have historically been invested in the Treasury's Short–Term Investment Fund (STIF).

Investment Objective: On an asset allocation basis, cash has the lowest expected return of all asset classes. Therefore, since SERS is a long-term investor, the objective is to minimize exposure to this asset and maintain a long-term allocation to the Cash asset class of zero.

Cash payments to meet the Fund's benefit payments and other obligations are sourced through employee and employer contributions, limited partnership distributions, and raising cash from public market managers from time to time. Contributions are a predictable source of cash flow, but are inadequate to meet continuing benefit obligations. Distributions from limited partnerships are unpredictable and dependent on market conditions and terms of partnership agreements. Accordingly, raising cash from public market equity, fixed income, and fund-of-hedge funds managers is required to meet monthly cash flow requirements.

In the Cash asset class, SERS' long-term investment objectives are to achieve a total return, net of fees, that exceeds the total return on 90 day U.S. Treasury Bills.

Market Exposure as of December 31, 2009: The effective cash exposure was approximately \$317.6 million or 1.2% of the total Fund's \$24,435.6 million.

Number of Investment Advisors: The cash strategy uses The Pennsylvania State Treasury Department to manage the uninvested cash in the liquidity accounts.

Number of Investment Portfolios: SERS' cash portfolio is managed primarily by the Treasurer.

Type of Investment Portfolios: SERS Cash asset class currently employs a money market short-term investment strategy. The portfolio also contains the uninvested cash balances held by other SERS investment advisors in other asset classes. Cash is invested in high-quality, highly liquid, short-term investments.

In the aggregate, the State Treasury managed approximately \$510 million on behalf of SERS and SERS' external investment advisors as of December 31, 2009.

Real Estate Investments Summary

as of December 31, 2009 - (unaudited)

Real Estate is one of six major asset classes that SERS uses to diversify the investments of the Fund. SERS' investment plan diversifies real estate investments and balances real estate management styles. In accordance with the investment plan, SERS contracts with external investment advisors to manage portfolios.

Investment Objective: Real Estate investments are generally long-term, illiquid investments that, due to their high correlation with inflation, provide an inflation hedge and, due to their low correlation with stocks and bonds, provide diversification within the total portfolio. It is expected that the long-term total return (income and appreciation) for real estate will fall between that of stocks and bonds. The Real Estate asset class is managed on a total return basis.

In the Real Estate asset class, SERS' long-term investment objective is to achieve a total net return that exceeds the total return of the Townsend Stylized Benchmark for rolling five year periods. SERS' **2009** *Investment Plan* targets a long-term allocation of 8.0% of assets to the Real Estate asset class.

Investments are made through commingled fund investments, limited partnerships, REITs and separate account portfolios where SERS contracts with external investment advisors to own properties directly or with other co-investors. SERS' Real Estate portfolio provides for diversification by:

- Transaction structure
- Property type
- Geographic location
- Development phase

Market Value as of December 31, 2009: Real Estate had an estimated \$2,114.4 million market value, approximately 8.7% of the total Fund. This market value represents September 30, 2009 reported numbers adjusted for cash flow that occurred in the fourth quarter 2009. Real estate market values and detailed property data is lagged by one quarter due to the timing of the receipt of the private market valuations and information.

Number of Investment Advisors: SERS had contracts with 26 external investment advisors to manage real estate portfolios as of September 30, 2009.

Number of Investment Portfolios: SERS had investments in 60 real estate portfolios managed by the 26 investment advisors.

Type of Investment Portfolios: The most recent property diversification data is as follows:

- 33% pooled funds, 67% separate accounts
- 23% office, 4% industrial, 8% retail, 24% residential, 14% hotel, 10% timber, 17% other (including senior and student housing, land and various niche property investments)
- 12% Pennsylvania, 29% East excluding PA, 27% West, 15% South, 6% Midwest, 11% International
- 23% of the market value of the separate accounts was invested in 17 investments located in Pennsylvania

Alternative Investments Summary

as of December 31, 2009 - (unaudited)

Alternative Investments is comprised of Venture Capital and Private Equity investments, both of which take the form of limited partnerships, and is one of six major asset classes that SERS uses to diversify the investments of the Fund.

Venture Capital and Private Equity Defined

Venture Capital is the financing of young, rapidly growing companies, typically at three stages of development. (1) Seed and Early Stage: Seed is the form of venture capital that supports companies in their conceptual phase, i.e., a product and market are identified, and a corporation may have been formed. Early Stage financing supports companies pursuing a business plan but not yet generating meaningful revenues. The product has been developed and may have been shipped to customers for testing. Management positions have been filled and an operating team is in place. (2) Late Stage financing supports companies that have proven revenues, and are in the process of rolling out operations and building sales to achieve profitability. (3) Growth or Expansion Stage financing supports profitable or nearly profitable businesses that, lacking access to significant debt financing, need capital for growth and expansion. Companies at either the later stage or growth or expansion stage may be nearing a strategic sale to another company or an initial public offering.

Private Equity primarily refers to investments in the equity and subordinated debt of established companies. Private equity approaches undertaken by SERS' limited partnerships include: (1) Leveraged buyouts and management buyouts in which companies are acquired through the use of borrowed funds, or a combination of borrowed funds and contributed equity capital. The acquired company's assets serve as collateral for the borrowed funds, which are repaid from the company's cash flows. (2) Distressed debt investing involves: (a) deleveraging of debt-laden, but successful, companies by infusing capital to permit debt reduction in exchange for an equity stake in the company, or (b) acquiring debt of a troubled, sometimes bankrupt company, at steep discounts to face value, followed by assistance to return the company to profitability to permit selling of the debt securities at levels above the discounted purchase price. (3) Secondary interests in established private equity funds – these interests are purchased from other investors who seek liquidity or desire to realign or rebalance their investment portfolios, often for non-financial reasons. Such partnerships begin to realize profits.

Investment Objective: SERS' long term investment objective for Alternative Investments is to achieve a risk-adjusted total return, net of fees, in excess of the return generated by the Cambridge Private Equity Benchmark and the Cambridge Venture Capital Benchmark for respective holdings. SERS' **2009** *Investment Plan* anticipates an Alternative Investment long-term allocation range with a midpoint of 14.0%.

Market Value as of December 31, 2009: The asset class total market value stood at \$5,739.2 million after adjusting the September valuation for subsequent cash flows in the 4th quarter. Alternative Investment market values lag one quarter due to timing of the receipt of private market valuations, reports and other information. These values do not include 4th quarter unrealized appreciation/depreciation. Alternative Investments represent 23.5% of the Fund. Sub-asset class market values and fund percentages were as follows:

	Unfunded Commitments (\$ millions)	Fair Value (\$ millions)	Percent of Total Fund
Venture Capital	\$653.5	\$1,459.5	6.0%
Private Equity	2,365.2	4,279.7	17.5
Total Alternative Investments	\$3,018.7	\$5,739.2	23.5%

SERS Alternative Investments

Number of Limited Partnerships: As of December 31, 2009, SERS had commitments to 348 active Alternative Investments limited partnerships, 120 to Venture Capital partnerships and 228 to Private Equity partnerships.

Alternative Investments Summary (continued)

Portfolio: SERS' Alternative Investment Program's scope has expanded over the years to include top investment funds nationally and internationally. The Program holds indirect investment interests in over 4,500 companies. The Venture Capital Program includes investments working to commercialize novel solutions to current and future challenges in information technology, communications, and medicine. In addition to direct fund investments, the Venture Capital Program includes investments in several fund-of-funds. A fund-of-funds is a limited partnership that, in turn, invests in other limited partnerships. Five of these fund-of-funds commitments have the strategic goal of enabling SERS to gain indirect exposure to many top-tier venture capital funds that SERS would otherwise have difficulty accessing directly. Another two of these commitments are to funds investing in minority-focused venture capital funds.

The Private Equity Program invests in buyout, distressed, international, and secondary oriented partnerships. Buyout transactions are privately negotiated or result from investment bank sponsored auctions, and are usually completed with present management in place; hostile acquisitions are generally avoided. Distressed investment managers employ differentiated strategies, i.e., they employ control or non-control approaches, and accordingly, have differing degrees of active influence over the companies in which they invest. European funds are attempting to capitalize on trends favoring the restructuring of large companies, generational succession in businesses established after World War II, cross-border business opportunities within the region since the formation of the European Economic Union and currency harmonization. Asian investments focus on the expanded opportunities in the region created by changing attitudes in many Asian countries regarding foreign investment, favorable demographic trends, globalization opportunities, and economic growth. The Program typically gains initial exposure to emerging markets and other target regions through the use of funds-of-funds. The portfolio's exposure to energy markets is also expanding. Additionally, SERS utilizes one manager to oversee stock distributions and another manager for co-investment opportunities.

Alternative Investment Portfolio Exposure: The Alternative Investment Program is well-diversified by stage of investment, industry focus, and geography. As of June 30, 2009, based on fair value, the program's exposure was as follows:

By Fund Sub Sector:

-	
U.S. Private Equity	42.5%
U.S. Venture Capital	23.1%
Non U.S. 1/	16.4%
Distressed/Opportunistic	10.5%
Pennsylvania Related	5.8%

Software	8.2%
Media/Communications	6.4%
Manufacturing	6.3%
Energy	6.0%
Electronics	2.5%
Other	6.4%

^{1/} Some managers with a domestic investment focus may invest globally. Thus, Non U.S. exposure measured on a portfolio company basis will be greater.

Venture Capital Committed, Drawn and Distributed

as of September 30, 2009 - (unaudited)

The capital committed column represents total dollars allocated from SERS to each limited partnership. Capital drawn is the portion of SERS capital commitments drawn by the General Partner to be invested with underlying portfolio companies. The distributions column shows the value of capital and profits returned to SERS.

Active Venture Capital Funds Limited Partnership	Financing Stage Focus	SERS Initial Funding	Capital Committed	Capital Drawn	Distributions

Private Equity Committed, Drawn and Distributed

as of September 30, 2009 - (unaudited)

The capital committed column represents total dollars allocated from SERS to each limited partnership. Capital drawn is the portion of SERS capital commitments drawn by the General Partner to be invested with underlying portfolio companies. The distributions column shows the value of capital and profits returned to SERS.

Inflation Protection Investments Summary

as of December 31, 2009 - (unaudited)

Inflation Protection is one of six major asset classes that SERS uses for investments of the Fund. The objective of this asset class is to reduce the deleterious affects of inflation by investing in strategies that specifically respond to expected and unexpected inflation. In accordance with SERS' investment plan, SERS contracts with external investment advisors to manage portfolios.

Investment Objective: Inflation Protection investments are employed by the Fund to provide diversification within the total Fund and to act as a hedge against inflation. The asset class is composed of actively managed commodities; TIPS; and a diversified inflation protection portfolio that includes commodities, inflation–sensitive stocks, and bonds. The strategies that make up the asset class were chosen for their inflation protection properties; commodities historically have the highest correlation to inflation, and TIPS are adjusted periodically for actual changes in inflation. The Inflation Protection strategies also provide diversification and low correlation to other assets in the portfolio, and are expected to outperform stocks and bonds during periods of rising inflation, but may underperform when inflation is stable or falling.

SERS' long-term investment objective in the Inflation Protection asset class is to achieve a total return, net of fees, that exceeds the total return of the SERS Custom Inflation Protection Benchmark.

SERS' **2009** *Investment Plan* targets a long-term allocation of 7.0% of assets to Inflation Protection. Within this 7% allocation, 28% is targeted to the TIPS portfolio, 36% is targeted to the active diversified inflation protection portfolio, and the remaining 36% is targeted to the active multi-manager commodity portfolio.

Market Exposure as of December 31, 2009: Inflation protection strategies had a \$1,560.7 million market exposure, 6.4% of the total Fund's \$24,435.6 million.

Number of Investment Advisors: SERS had contracts with three external investment advisors.

Number of Investment Portfolios: SERS had three Inflation Protection portfolios managed by the three investment advisors.

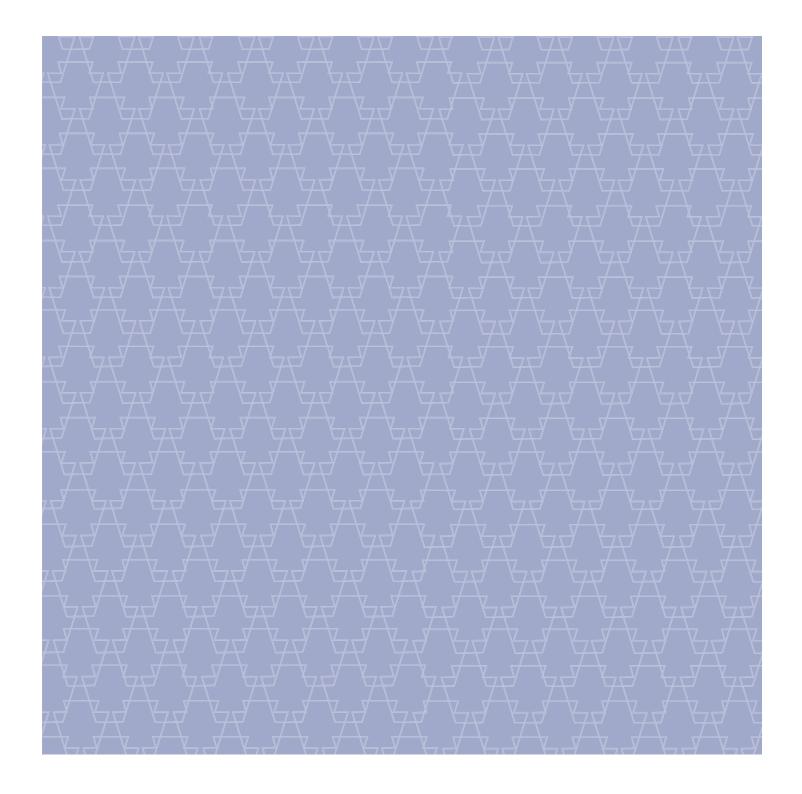

Types of Investment Portfolios: As of December 31, 2009, 40.7% of SERS' Inflation Protection allocation was invested in intermediate-duration TIPS that generate higher incremental return above typical cash instruments. Another 27.7% of the Inflation Protection allocation was in the actively managed diversified inflation protection portfolio which invests in commodities, inflation-sensitive global equity and TIPS. The remaining 31.6% was in the multi-manager commodity product, which employs five underlying commodities managers across the various commodity sectors (energy, precious metals, industrial metals and agriculture).

Pennsylvania Investments Summary 10

Pennsylvania Investments Summary

as of December 31, 2009 - (unaudited)

The Board, employees of SERS and agents of the Board stand in a fiduciary relationship to the members and beneficiaries of the System regarding the investments and disbursements of the Fund. Subject to "prudent investor" investment responsibilities contained in the Retirement Code and the Fiscal Code, the Board has exclusive control and management of the Fund and full power to invest the assets of the Fund. The Board adopted a formal *Statement of Investment Policy* in 1979, which was last revised effective April 2009 to reflect and incorporate subsequent legislative and policy changes governing investments. Where investment characteristics including yield, risk and liquidity are equivalent, the Board's policy favors investments that have a positive impact on the economy of Pennsylvania.

The most significant impact the Fund can have on the State's economy is to manage an overall program that achieves a fully funded status and lowers the employer contributions to the Fund below the normal cost. The Fund has been successful in these endeavors, maintaining a well funded status since 1992 and reducing the employer contributions from over 18% in 1981 to the current statutory rate of 4.01%. The reduction of such contributions may then be used by the legislature for purposes it deems most important to Pennsylvania citizens and taxpayers, such as tax reduction, economic development or other priorities. Nevertheless, the Fund also seeks to invest in Statebased companies and other State entities when investment characteristics are equivalent.

Market Value of Pennsylvania Investments as of December 31, 2009: SERS' assets had an unaudited market value in Pennsylvania investments of approximately \$1,338.4 million (5.5% of SERS Fund).

SERS Pennsylvania Investments By Asset Class (\$ millions)

SERS investment portfolios have historically held investments in Pennsylvania firms, as some large national firms are headquartered in Pennsylvania, including Comcast Corporation (Philadelphia), PNC Financial Services (Pittsburgh), Air Products & Chemicals, Inc. (Allentown), H. J. Heinz Company (Pittsburgh), and Sunoco (Philadelphia). In addition, SERS has invested in portfolios that are designed to give emphasis to investments in Pennsylvania while meeting the fiduciary standards mentioned previously.

Stocks

SERS' Pennsylvania stock universe is comprised of 352 publicly-traded corporations which: 1) name their headquarters as Pennsylvania and have Pennsylvania employees or operations; or 2) have Pennsylvania-based employment exceeding 25% of total corporate employment. The following are some of the top performing Pennsylvania stocks for 2009.

Pennsylvania Investments Summary (continued)

Emerald Advisers, Inc. of Lancaster and Mellon Capital Management Corporation actively manage portfolios principally derived from the mid/small cap stocks in SERS' Pennsylvania stock universe. These two portfolios, plus the Pennsylvania stocks held in SERS other stock portfolios, provided a total of \$414.2 million invested in Pennsylvania stocks.

Fixed Income

SERS had approximately \$23.6 million invested as of December 31, 2009, in corporate securities issued by Pennsylvaniabased companies. These securities are held in SERS' various externally managed bond portfolios.

In 1998, the SERS Board approved the funding for the Pennsylvania Capital Fund with a \$50 million allocation committed to the program. The program commenced in March 1999 managed by Berwind Financial Group (Berwind) and PNC Equity Management (PNC). Each advisor was awarded commitments of \$25 million to be invested over four years. Both entities matched SERS' investment. The program provides debt financing to support the expansion and growth of Pennsylvania small business. The Fund seeks to lend to established, profitable companies in good financial condition with annual revenues ranging from \$10 – \$100 million. The majority of the Fund's investments had a maturity of between five and ten years. Loan amounts usually ranged from \$2 million to \$15 million. As of December 31, 2009 SERS portion of Berwind investments totaled \$4.7 million while the PNC investments had matured and all capital was returned to SERS. Most of Berwind's investments have also matured and capital distributed back to SERS. An example of SERS' investments through the Pennsylvania Capital Fund as of December 31, 2009 is an investment of \$2.15 million in redeemable preferred stock from Elite Health Solutions, Inc of Mechanicsburg. Elite Health Solutions provides portable x-ray and related mobile diagnostics services primarily at nursing homes and correctional facilities.

Cash

SERS is one of the largest investors in the Pennsylvania State Treasury Department's Short-Term Investment Pool.

Real Estate

In 1987 SERS began investing directly in the Pennsylvania commercial real estate market and subsequently established two separate account real estate portfolios managed by Heitman Capital Management and Grosvenor Investment Management, formerly Legg Mason Real Estate Services, with a Pennsylvania focus. The Heitman separate account originally had a requirement to invest on a best efforts basis 50% of its initial allocation within the Commonwealth while the Grosvenor account is focused primarily on investing within the state.

As of September 30, 2009, the SERS real estate portfolio contained 66 Pennsylvania properties totaling 9.6 million square feet of office, retail, and warehouse space, and 10,312 apartment, hotel and senior housing units. The gross market value of the Pennsylvania real estate portfolio investments totaled \$1,578 million, of which SERS' ownership share was \$286.3 million.

Alternative Investments

SERS' venture capital program dates back to 1985. Initially the program targeted a 1% allocation to venture capital with a focus to invest with managers located in Pennsylvania or with managers whom had a Pennsylvania investment mandate. Over its 24 year life the program has grown to include national and international based private equity and venture capital managers and the target allocation to alternative investments is 12%. Although the program has become more global, the number of managers investing in companies that impact Pennsylvania via income tax revenue and/or corporate tax revenue continues to comprise a meaningful portion of the program. As of June 30, 2009, 53 of SERS' active managers held investments impacting the state. SERS' market values of Pennsylvania-based and non-PA based companies impacting the Commonwealth are \$132 million and \$481 million, respectively. This equates to 12.3% of the alternative investment program market value.

Pennsylvania Investments Summary (continued)

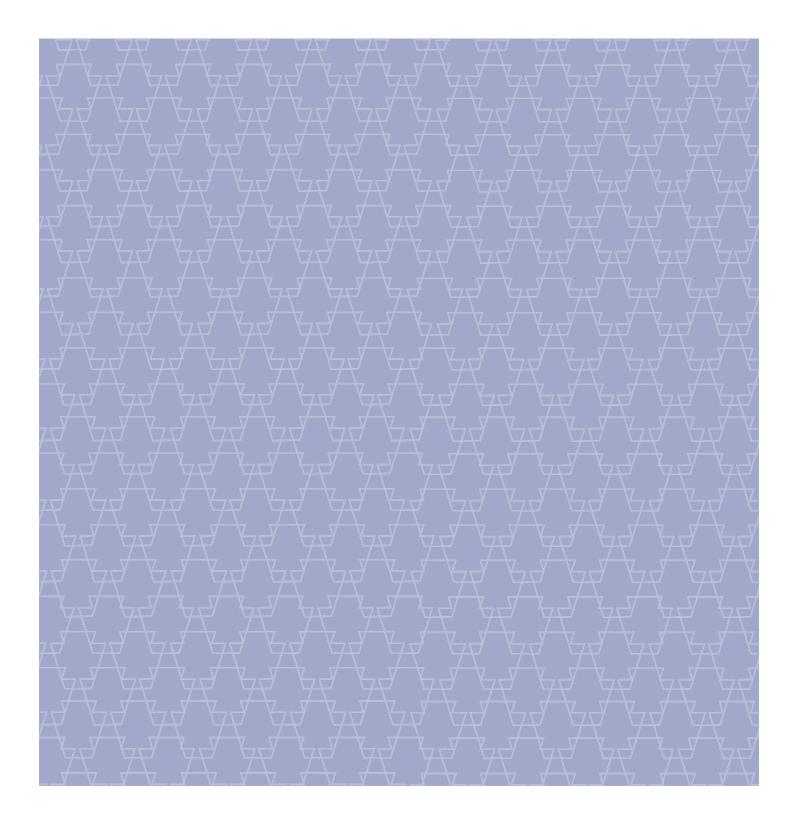

As of June 30, 2009, SERS' venture capital and private equity partnerships invested in 81 Pennsylvania companies employing approximately 28,500 employees, and representing a payroll of \$1.2 billion. In addition, partnerships in which SERS participates invested in 200 companies domiciled outside Pennsylvania but employing approximately 31,200 Pennsylvania citizens with payrolls of \$1.2 billion. These employment rates are expected to generate millions in state income tax revenue.

The number of employees and payroll reported from period to period is often volatile. This is due to several reasons, one of which is the nature of the investments. Venture capital investments often begin with a handful of employees and grow the staff as the companies progress, while investments in companies facing some type of impediment often involve cost cutting measures. These reported numbers change dramatically as companies are added or deleted from the portfolio. Other reasons for the changes in the numbers include inconsistent reporting or lack of reporting by the portfolio companies to the general partners. Additionally, the report does not differentiate between permanent full time positions created and seasonal or part-time positions. Therefore, there may be a significant increase in the number of Pennsylvanians employed with a minimal increase in the total payroll if a company such as Blockbuster, which primarily employs minimum wage, part-time employees, is held in the portfolio. This highlights a few of the causes for the volatile nature of the numbers, but is by no means all inclusive.

Based on data through 2006, Global Insight has compiled rankings of venture capital investing in the United States. For venture-backed companies headquartered in the state, Pennsylvania ranks third in the number of jobs generated and fifth in terms of dollar revenues for 2006. For the period from 1970 through 2006, Pennsylvania stands at number eight in cumulative venture capital investment.

Although the Board's fiduciary duty is to SERS' members and beneficiaries, investments in Pennsylvania provide an ancillary and subordinate benefit to the state's economy as indicated above. The investment policy acknowledges that such benefit, derived from investments in Pennsylvania-based companies, or firms employing Pennsylvanians, should be considered after other primary fiduciary investment characteristics are satisfied.

Women/Minority Advisors and Brokers 11

Women/Minority Investment Advisor and Broker Report

as of December 31, 2009 - (unaudited)

Investment Advisors

The following five women or minority–owned firms were under contract with SERS to provide investment advisory services as of December 31, 2009.

Firm	Status	SERS Assets Under Management
Fairview Capital I & II	Minority Woman-Owned	\$20.0 million commitment \$19.9 million funded
Hawkeye Partners	Woman-Owned	\$75.0 million committed \$14.4 million funded
Pacific Alternative Asset Management Co.	Woman-Owned	\$1,537.2 million fair value
Rock Creek	Minority Woman-Owned	\$422.4 million fair value
Taplin, Canida & Habacht, Inc.	Minority Woman-Owned	\$123.2 million fair value

Women/Minority-Owned Investment Advisors

Brokers and Brokerage Commissions

SERS's external investment advisors utilized the following minority-owned brokerage firms during calendar year 2009.

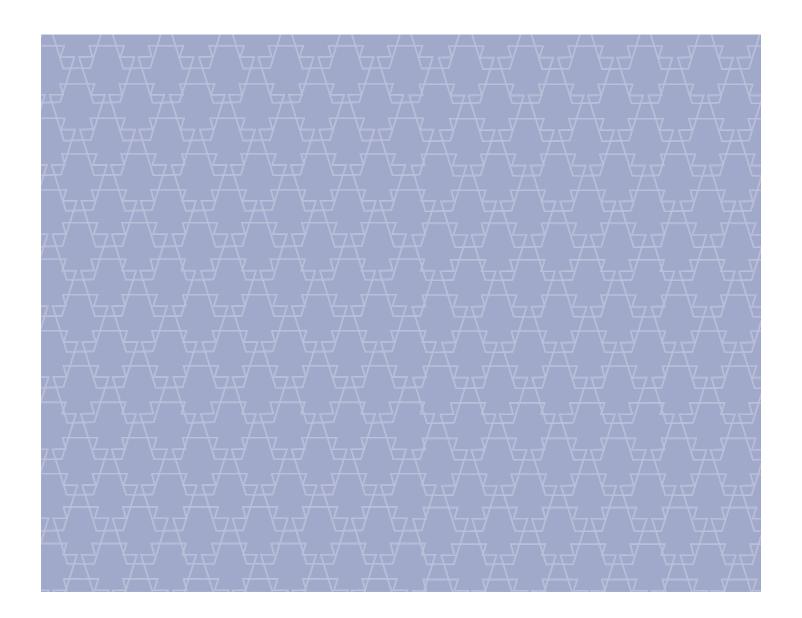

Minority commissions totaled \$273,127 for the year. Of this amount, international stock managers had \$58,228 of commissions credited to minority brokers. The SERS Board has a policy of targeting 5%-10% of U.S. stock commissions to be done with minority brokers. It is estimated that this year SERS U.S. stock managers directed approximately 10% of their trades through minority brokers. In addition, although not included in the Board mandate, other SERS advisors are encouraged to trade through minority brokers. Last year fixed income managers traded \$69.0 million of securities through minority brokers.

Deferred Compensation Program 12

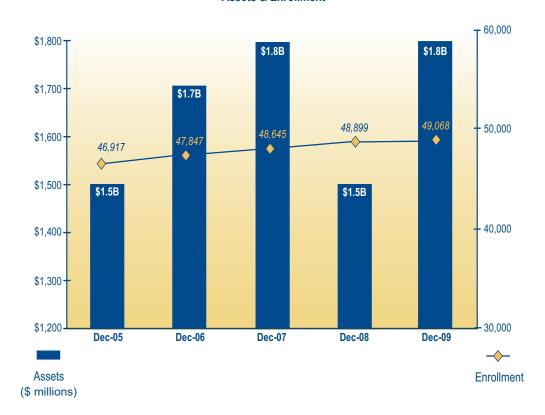

Deferred Compensation Program

Program History

Act 1987-81 assigned to the Board the responsibility to establish and monitor a Deferred Compensation Program (Program) for Commonwealth officers and employees, through which participants may voluntarily build retirement savings by deferring a portion of salary to selected investment options. The Program is established as a trust, and is administered in accordance with Internal Revenue Code Section 457(b). Through the Request for Proposal process, the Board selected Great-West Retirement Services as Third Party Administrator (TPA) of the Program. The duties of the TPA are to maintain individual participant records, market the Program to participants, and counsel the members about the Program's benefits. The core investment options are selected by the Board, and are independent of the TPA's functions.

Growth of the Program

Over the past five years, the Program's assets have increased in value from \$1.5 billion to approximately \$1.8 billion. The sharp drop in assets from \$1.8 billion in 2007 to \$1.5 billion in 2008 can be attributed to the downturn in the financial markets as participation in the program remained steady. As of December 31, 2009, Program participants totaled more than 49,000. Of that total, nearly 33,000 were actively contributing to the Program through regular payroll deductions. The amount of annual participant deferrals varied from \$134 million in 2005 to \$121 million in 2009. Deferrals peaked in 2007 at \$160 million. This was attributed to the large number of participant retirements in June 2007 that utilized the Program's special catch-up feature. Benefit payments to participants increased over that same time span, from \$39 million in 2005, to \$40 million in 2009. The chart below depicts the Program's asset and participation levels over the past five years.

Deferred Compensation Program Five Year Activity Assets & Enrollment

Deferred Compensation Program (continued)

Program Highlights

The Program provides participant assistance via individual and/or group counseling sessions with the eligible employee, at the employees' work site. The TPA has established a local walk-in office in the Harrisburg downtown area. A toll free telephone service with counselors is also available to offer personal assistance. A telephone Voice Response Unit can be accessed at anytime to allow the participant to check on their account balance, transfer funds among different investment options or inquire about other Program features. The participants may also access the Program's Web site to view their most recent investment position, to make future allocation changes, to transfer among investment options and to update beneficiary information. Educational videos on financial, investment, and retirement planning are also available to help participants in their investment and retirement decisions. In January 2009, the Program began to offer managed accounts to its participants. Managed accounts are personalized investment portfolios put together from among the plan's investment options for participants who want a professional to do the investing for them.
