February 8, 2012

The Honorable William F. Adolph Jr. Chairman, Appropriations Committee Pennsylvania House of Representatives 245 Main Capitol Building Harrisburg, PA 17120-2165

The Honorable Joseph F. Markosek Democratic Chairman, Appropriations Committee Pennsylvania House of Representatives 512E Main Capitol Building Harrisburg, PA 17120-2025

#### Gentlemen and Members of the Appropriations Committee:

On behalf of the State Employee's Retirement System (SERS), I am pleased to share this detailed information about SERS' operations, investments and appropriations request. I trust that this data will be useful in your careful deliberation of the Commonwealth's FY 2012/13 budget.

In reviewing and transmitting this information, I am proud of the men and women who work so hard every day to serve Pennsylvania's public employees by administering their retirement benefit. Every person who works at SERS understands that our vigilant stewardship of employee and taxpayer dollars ultimately provides financial security for more than one hundred thousand Commonwealth retirees – our communities' volunteers, our neighbors, our friends, our parents.

The "looming pension crisis" has once again been the subject of extensive media coverage over the past year. Rather than rely on press or academic reports that paint this important issue with a broad brush, I call your attention to some facts—some favorable, some less so—associated specifically with our plan:

- Far from the media hype of "bloated" or "exorbitant" public pensions, the average SERS pension for someone who worked to full retirement age is about \$24,000 per year. And only about half of SERS retirees work to full retirement age. Those who retire early, retire as a result of a disability, or survive a retiree receive considerably less, between \$10,000 and \$16,000 per year.
- Pennsylvania enacted significant state pension reform in 2010. As a result of Act 2010-120, the Commonwealth's pension costs were cut approximately in half. It now costs just 4% of payroll to provide retirement benefits to SERS-covered employees hired on or after January 1, 2011.
- Most employees contribute 6.25% of their own paychecks toward their state retirement.
- As of December 31, 2011 the market value of the SERS Fund (Fund) was \$24.2 billion. Despite this year's economic turbulence, the Fund achieved an estimated return of 2.6%, which places it in the top 80% of similarly situated public pension funds. Nonetheless, the Fund is \$1.7 billion less than it was at this time in 2010.
- The system has more retired members than active members and is paying out approximately \$166 million more each month than it is taking in from employer and employee contributions. SERS' increasing maturity raises the liquidity needs of the Fund and will require that assets be rebalanced.
- For a variety of reasons—employer contributions below normal costs, losses that neutralized investment gains used to justify lower employer contributions, benefit increases without corresponding funding, changes to extend time to pay down liabilities—SERS has an unfunded liability of about \$12.5 billion, which is a debt that has already been incurred and is owed to current and retired employees.

- Act 2010-120 allows for employer contributions to increase at predictable, measured intervals over time: 8.0% in FY 2011, 11.5% in FY 2012, and increases of not more than 4.5% each fiscal year thereafter. Such contributions, however, remain below the actuarial annual contribution rate until at least 2015 and result in an ongoing deficit.
- When the General Assembly meets the increases scheduled in Act 2010-120 and as the Fund continues to achieve its assumed rate of return over time, SERS will again approach full funding in roughly 30 years. Given the current fiscal climate, honoring the commitment and meeting return assumptions may very well be difficult, however, they are essential.

In referencing the current fiscal climate, I would be remiss if I neglected to spotlight the Fund's importance to the Commonwealth's economy. Tab 10 of this book details the roughly \$960 million in Pennsylvania-based investments which clearly align with SERS' fiduciary obligation to its members.

And, of course, we know that pension payments are a primary source of income, safety and stability for the more than 115,000 people who receive SERS checks each month. Studies suggest that a single taxpayer dollar—when augmented by the employee's own contributions and the overwhelming power of the billions in SERS investment earnings over decades—generates significant economic activity.

The 107 participating SERS employers paid \$399 million to the system in 2011 while the system paid \$2.4 billion in payments to Pennsylvania-based retirees. These payments directly stimulate economic activity in communities throughout Pennsylvania. According to the National Institute on Retirement Security, the Commonwealth's real estate, finance, insurance, retail and health care sectors are particularly influenced by retiree spending.

The information in this book provides a great deal of detail on SERS' operations and investments. I, along with Acting Executive Director, David Durbin, and Chief Investment Officer, Anthony Clark, am prepared to answer any questions you may have during our February 23 hearing. If you have questions, comments, or concerns before then – or if there's any issue you would like to be sure we are fully prepared to discuss with specificity – please contact Mr. Durbin at (717) 787-9657.

Thank you for your time and consideration. You have extremely challenging work ahead of you; if there is any way SERS or its professionals can help you, please don't hesitate to call.

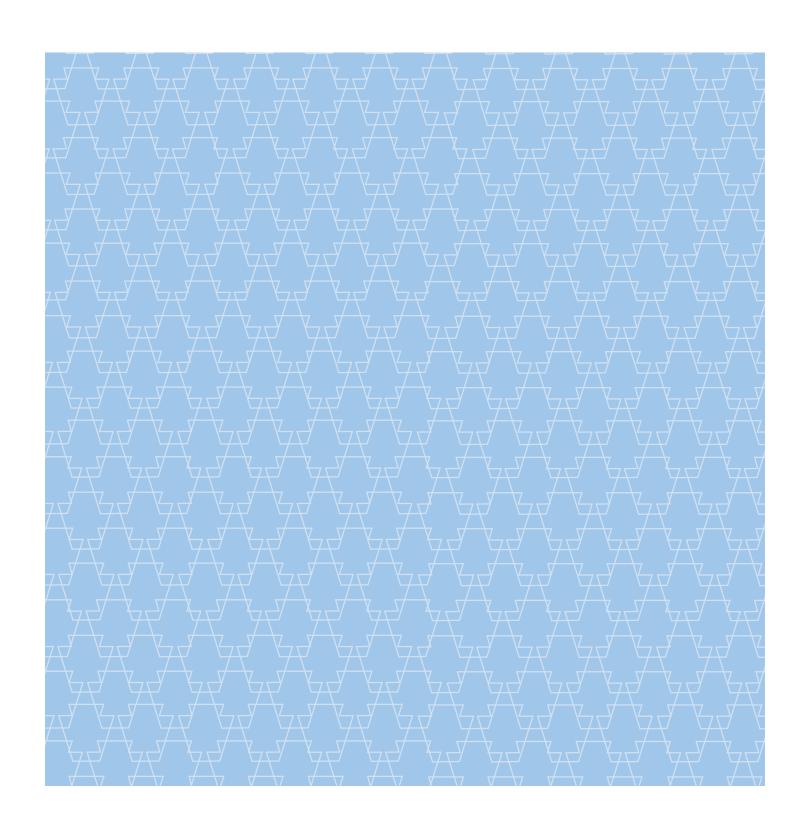

Sincerely,

Nicholas J. Maiale

Chairman

## Mission, Vision & Guiding Principles

Established in 1923, SERS is one of the nation's oldest and largest statewide retirement plans for public employees, with more than 227,000 members. SERS is among the largest of public and corporate pension funds, with assets of approximately \$24.2 billion as of December 31, 2011.

SERS is responsible for administering the State Employees' Retirement Code in accordance with the expressed intent of the General Assembly and bears a fiduciary obligation to the state employees and retirees who are the plan beneficiaries.

State law provides that the administration of the SERS Fund and the fiduciary responsibility for its management be vested in an 11-member Board. The management of SERS is the responsibility of the Executive Director who, with the approval of the Board, contracts for professional services and employs the staff needed to operate the System.

#### Mission

The mission of SERS is to provide retirement benefits and services to our members through sound administration and prudent investments.

#### **Vision**

To navigate the fiscal storm in such a way that SERS emerges with a positive cash flow and enhanced member services.

#### **Guiding Principles**

- Demonstrate Integrity
- Think Strategically
- · Lead Innovation and Improvement
- Develop and Empower Employees
- · Share Knowledge
- Focus on Customer Service
- Learn from Mistakes
- Safeguard Information, Facilities and Staff
- Fulfill Fiduciary Obligations

## Organization & Operations

The agency's various program functions are administered by staff in SERS' Harrisburg Central Office and through a statewide network of seven Regional Retirement Counseling Centers. Assignment of major agency functions is as follows:

**Executive Office:** Supports the Executive Director who is the agency's senior staff administrator. Provides direct service to the Chairman of the Board and Board members. Makes arrangements for and conducts administrative functions for all Board meetings. Conducts research and provides agency direction on organizational development, strategic planning, pending retirement issues and actuarial considerations. Includes the Communications and Policy Office, which serves a variety of support functions related to communications and legislation. These include preparation and dissemination of retirement-related information and publications, tracking and reporting on retirement legislation, serving as the agency's legislative liaison and handling inquiries from the media, state Legislature and the public.

**Office of Member Services:** Provides individualized counseling and retirement-related seminars through SERS' statewide system of seven Regional Retirement Counseling Centers. Processes member and member-survivor benefit payments and provides membership account services. Researches issues in public pension programs, recommends adoption of new strategies, and performs special retirement-related functions.

**Investment Office:** Works closely with the Board to recommend and establish asset allocation, investment policy and investment managers for review and approval by the Board. The office works in tandem with the consultants monitoring the compliance and performance of the outside managers and undertaking research on investment products and investment managers.

**Office of Finance and Administration:** Provides the accounting structure for SERS' \$24.2 billion Fund; oversees all transactions, including payment of member benefits, purchase and sale of investment securities, receipt of employer and employee contributions and investment income, and administration of the agency operational budget. The office also manages agency operations and disaster recovery planning, while reporting to the Board on management of the approximately \$2.2 billion Commonwealth Deferred Compensation Program.

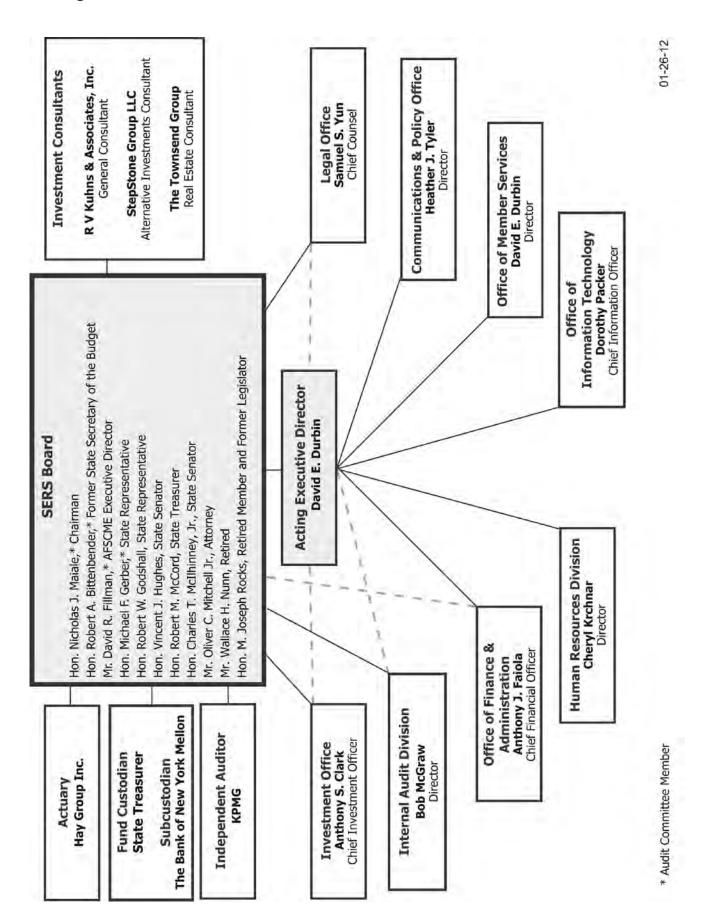

**Legal Office:** Provides counsel to the Board and the agency, including handling administrative hearings involving SERS members, reviewing investment and non-investment-related contracts, and providing legal advice.

**Office of Information Technology:** Provides all computer and technical support for SERS operations, including a Wide Area Network linking the agency's seven Regional Retirement Counseling Centers.

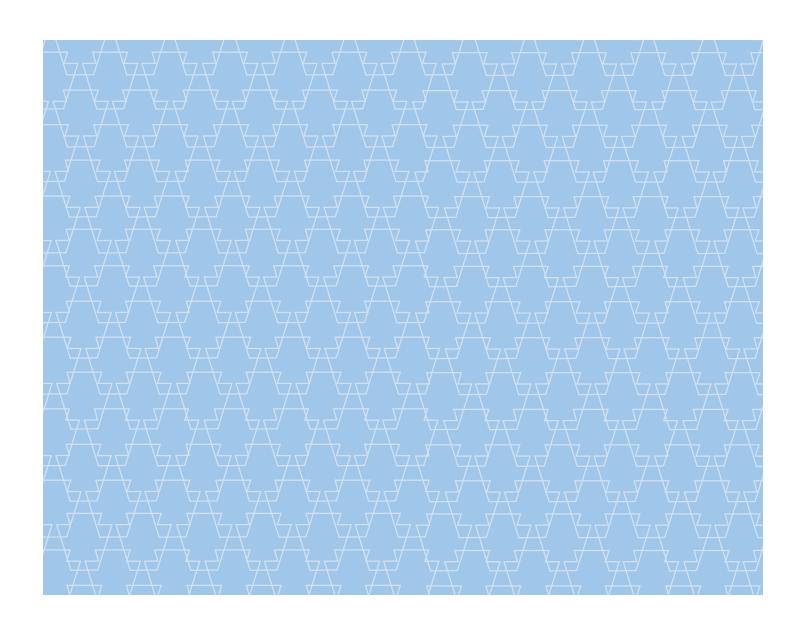

**Internal Audit Division:** Provides the Board with the assurance that internal controls are adequate and operating as designed through internal audits of business processes. Coordinates audits performed at SERS by external agencies and auditors.

**Human Resources Division:** Implements programs and provides direction for all aspects of organizational change and employee needs including, but not limited to, recruitment, classification, compensation, staff development, workforce planning, and labor relations.

The Townsend Group	Real Estate	284,000
RV Kuhns & Associates 2/	General Investment	130,973

<sup>&</sup>lt;sup>1</sup>/Assumed duties as the Fund's alternative investment consultant in October 2011.

<sup>&</sup>lt;sup>2</sup>/ Assumed duties as the Fund's general investment consultant in October 2011.

# Fees to Managers (Non-Budget Appropriation)

SERS employs outside investment managers because of their investment expertise. The managers of the SERS' investment portfolio are paid through the non-budget appropriation. Their fees are treated as a reduction of the investment revenue of the Fund, rather than as a direct administrative expense. Thus, when investment performance is reported elsewhere in this book, the numbers are reported net of fees - that is, performance after all investment management fees have been paid.

## **Directed Commissions**

#### **Directed Commissions\***

	FY 2011-12 Budget	FY 2012-13 Budget
Beginning Balance	\$3,861,059	\$2,761,059
Directed Commission Revenue	100,000	100,000
Total Available	3,961,059	2,861,059
Directed Commission Expense	1,200,000	1,200,000
<b>Ending Balance</b>	\$2,761,059	\$1,661,059

<sup>\*</sup>Directed commissions are reimbursements to the System for a portion of the fee paid to a broker for executing a trade.

### Member Services

The Office of Member Services provides a variety of services to SERS Active Members and Annuitants. Following are lists of services provided through the seven Regional Retirement Counseling Centers.

#### **Services to Active Members**

- Calculate regular retirement, Disability Retirement and vesting estimates upon request.
- Provide one-on-one counseling for any member who is considering retiring or terminating service.
- Provide Active Members with an annual *Member Statement of Account*.
- Provide counseling to deceased members' Beneficiaries or Survivor Annuitants.
- Conduct group information sessions (Question & Answer Sessions, Pre-Retirement and Vestee Seminars).
- Provide resource speakers for various agency or association information sessions.
- Provide estimates and counsel members on the purchase of creditable State and nonstate service.
- Provide information on members' eligibility for retiree health benefits.

#### **Services to Retired Members**

- Provide direct deposit forms, federal income tax withholding forms, and change of address forms upon request; and provide information and assistance to complete the forms.
- Provide Beneficiary forms and assist members in completing the forms.
- Provide all Annuitants with an annual *Personal Statement of Retirement Benefits*.
- Provide all Annuitants with a 1099-R federal tax form each tax year.
- Take information and process change of dependent information on the retiree's Retired Employees Health Program (REHP) coverage.
- Investigate and place stop payment transactions on checks not received by Annuitants after ten working days.
- Provide resource speakers for group or association informational seminars.
- Receive and process notifications of death and serve as a contact for Beneficiaries and Survivors.
- Provide option change counseling for members when their Designated Survivor predeceases them, the retiree obtains a divorce, or when the retiree marries after the date of their retirement.
- Provide counseling on any change of monthly Annuity payment, when applicable.

#### **Regional Retirement Counseling Centers**

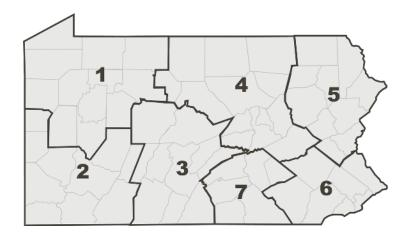

Region 1 Seneca Office Serving Armstrong, Butler, Clarion, Crawford, Elk, Erie, Forest, Jefferson, McKean, Mercer, Venango and Warren counties.

Region 2 Pittsburgh Office Serving Allegheny, Beaver, Cambria (Western), Fayette, Greene, Indiana, Lawrence, Somerset, Washington and Westmoreland counties.

Region 3 State College Office Serving Bedford, Blair, Cambria (Eastern), Centre, Clearfield, Franklin, Fulton, Huntingdon, Juniata and Mifflin counties.

**Region 4 Montoursville Office** Serving Bradford, Cameron, Clinton, Columbia, Lycoming, Montour, Northumberland, Potter, Schuylkill, Snyder, Sullivan, Tioga and Union counties.

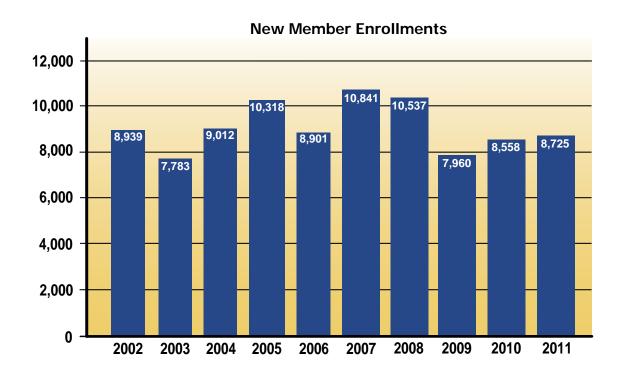

**Region 5 Hazleton Office** Serving Carbon, Lackawanna, Lehigh, Luzerne, Monroe, Northampton, Pike, Susquehanna, Wayne and Wyoming counties.

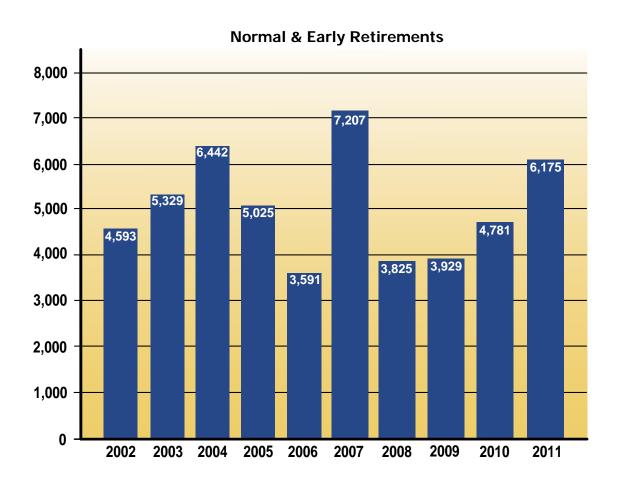

Region 6 Bensalem Office Serving Berks, Bucks, Chester, Delaware, Lancaster and Montgomery counties and Philadelphia.

**Region 7 Harrisburg Office** Serving Adams, Cumberland, Dauphin, Lebanon, Perry and York counties.

Beneficiary/Survivors	75.0	74.9	75.0	74.8		9,094	9,481	9,833	10,334

Since 2008 the average annual superannuation pension is up 11.3%.

# Legislation 6

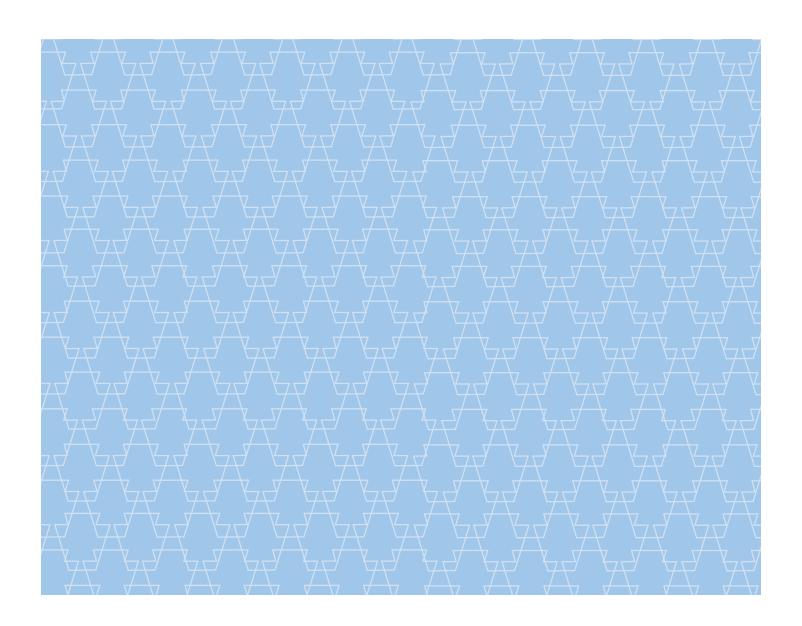

# Legislation

#### **Legislation Enacted During 2011**

No amendments to the Retirement Code (Title 71) became law during 2011.

# Funding Process and Actuarial Status

# Funding Process & Actuarial Status (Unaudited)

#### Funding Process: Defined Benefit Plan and Deferred Compensation Program

Pennsylvania's State Employees' Retirement System administers two retirement plans to help ensure the financial security of the Commonwealth's public workforce in their retirement years.

#### **Defined Benefit Plan**

Most state employees are required to participate in Pennsylvania's defined benefit plan, which is referred to simply as the "pension plan."

In the defined benefit plan, both the employer and the employee pay a certain percentage of the employee's salary to the SERS Fund for as long as the employee works for the Commonwealth. In FY 2011/12, employers generally are paying 8% and most employees are paying 6.25%. SERS aggregates and invests this money to achieve returns to help ensure sufficient funds are available to make payments to current and future retirees.

When employees meet certain thresholds—working a specific number of years to achieve "vesting," for example—they become eligible to receive monthly retirement payments for the rest of their lives. The payment amount is based on a formula that includes the employee's length of service, their age, their compensation over a period of time, and an "accrual rate" that is determined by the General Assembly.

The rules of this plan are set forth in Pennsylvania law through the State Employees' Retirement Code. Additional details of the defined benefit plan are included in this section.

#### **Deferred Compensation Program**

Commonwealth employees who are eligible to participate in the pension plan may choose to augment their retirement savings by voluntarily participating in the SERS-administered Deferred Compensation Program. This plan is often referred to simply as "deferred comp."

In the deferred comp program, employees elect to have any sum they choose—up to certain limits—withheld from their paychecks on a pre-tax basis. There is no employer contribution. Employees may enroll at any time and change the amount they contribute at their discretion. Employees direct their own savings into an array of investment options and may adjust their allocations and options at any time.

When employees retire, they gain access to the amount they've saved, including the earnings and/or losses on their own investments.

The cost of administering this plan is borne solely by participants, using no Commonwealth funds.

The rules of this plan are set forth in federal law through Section 457(b) of the Internal Revenue Code. Additional details of the Deferred Compensation Program are included in Tab 12 of this book.

#### Funding Process: Determining Adequate Funding for a Defined Benefit Plan

A defined benefit plan operates on a sound basis when the funds on hand and expected future contributions plus earnings are sufficient to cover the value of promised benefits.

It is a standard feature that employee and employer contributions invested throughout an employee's working life provide sufficient funding to pay for that particular employee's expected lifetime retirement benefit.

Because a defined benefit plan guarantees a monthly payment to every retiree for life, it is impossible to develop precise, before-the-fact costs and cash flows for the plan.

### What is an "unfunded liability"?

An "unfunded liability" — also commonly called an "unfunded actuarial liability" or "UAL" — is the degree to which the current and projected liabilities exceed the current and projected assets of a pension plan.

In other words, it is the difference between what the Commonwealth's pension plan is legally obligated to pay and what assets have been set aside to make those payments.

The number of people paying into the plan, the amount they earn, how long they work, the number of people retiring, the age at which each person retires, and how long each retiree lives are among the myriad of factors that vary from day-to-day, month-to-month, and year-to-year.

Actuarial science is used to develop accurate predictions. Actuarial science applies available data to a number of interrelated mathematical and statistical methods and uses investment and financial practices to study uncertain future events.

SERS' actuarial firm conducts an in-depth investigation, review, and analysis of economic and demographic data every five years. Economic assumptions include rates of investment return and salary growth, for example, which are significantly impacted by inflation. Demographic assumptions include workforce, disability, and mortality trends.

#### **Key Actuarial** Assumptions

8.00% long-term investment return

6.20% average salary/career growth

> 2.75% inflation rate

The selection of economic and demographic assumptions used is generally guided by the Actuarial Standards Board via the Actuarial Standard of Practice 35. In SERS' case, some very important assumptions – such as the length of time over which investment gains and losses are recognized on SERS' books—are set by Pennsylvania law.

Each year, SERS' actuary performs a valuation of the plan. The valuation uses the most recent employee and retiree demographic data to determine the sum of expected future obligations and compares such obligations to the expected value of the Fund's assets, based on current audited financial statements and future economic assumptions.

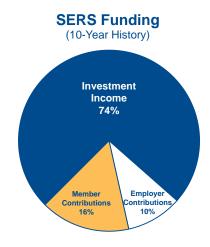

This calculation is factored with the statutorily set employee contribution rate and the assumed investment rate of return as the basis for calculating how much employers need to contribute in order to fully fund their employees' retirement benefits.

#### Funding Process: Sources and Trends for SERS' Defined Benefit Plan

Defined benefit plans are designed to remain stable by receiving three regular funding streams - employee contributions, investment earnings, and employer contributions.

#### **Employee Contributions**

Active employees pay a certain percentage of their salaries toward their retirement benefit. While different classes of employees pay different rates, most employees currently pay 6.25% of their salary with a certain segment who are eligible for and elect higher benefits at 9.3% of pay. Employees' contributions are typically withheld from their paychecks and sent directly from their employer to SERS. The percentage is set by statute and the rate doesn't change from year to year.

In 1981, employee contributions totaled \$116 million; in 2011 employee contributions totaled \$350 million, a more than 200% increase over 30 years.

A significant body of case law establishes that the contract clauses of the United States and Pennsylvania constitutions protect public retirement benefits from being retroactively changed in any way that may be construed as a "net detriment" to employees. "Net detriment" has been interpreted as either any reduction in benefits agreed-to at the time of hire or as any increase in employee contributions required to maintain the same level of agreed-to benefits.

Pennsylvania Act 2010-120 did introduce a "risk sharing" provision that allows for an increase in contributions by employees hired on or after January 1, 2011 if there is a multi-year period of investment returns below the assumed rate. An increased employee "shared risk contribution" would be established every three years beginning in 2014. The additional contribution may not increase by more than 0.5% in any three-year period and may not exceed 2% in

#### **Investment Earnings**

SERS' overall investment objective is to assure adequate Fund reserves at the least cost to Commonwealth citizens and to provide some protection against the erosion of principal by inflation. SERS seeks to provide investment earnings that meet, or preferably exceed, the actuarial rate of return assumption over complete economic cycles. SERS strives to meet this objective by applying acceptable risk parameters and allocations to investments that are diversified by type, industry, quality, and geography.

Investment earnings can vary widely from year to year; the SERS Fund, for example, produced a nearly 25% return in 2003 and experienced more than a 25% loss in 2008. In order to minimize volatility, Pennsylvania law requires that the differences between actual performance and an assumed rate of return be recognized on SERS' books over a five-year period at a rate of 20% per year—a concept often referred to as "smoothing." Thus, 2008's losses will continue to negatively impact SERS' unfunded liability through 2012.

SERS examines and sets its assumed rate of return each year based on global market dynamics, investment performance and other considerations. In 2009 SERS reduced its assumed rate of return from 8.5% to 8%, for example, largely as a result of 2008's global economic collapse.

SERS' assumed rate of return is currently at 8%.

# Public Pension Fund Assumed Rates of Return (2011 Public Fund Survey)

8.25	16
8.50	11

For 11 of the last 16 years, SERS has exceeded assumed rates of return. Moreover, even factoring in recent losses, the SERS Fund has achieved a 20-year compounded rate of return of 8.2% and a 30-year return of 10.2%.

The "shared risk" provision of Act 2010-120, previously discussed, is designed to moderate the need for future employer rate increases that may be prompted by investment underperformance, should it occur.

As of December 31, 2011 the market value of the SERS Fund was \$24.2 billion. Despite this year's economic turbulence, the Fund achieved an estimated return of 2.6%, which places it in the top 80% of similarly situated public pension funds. Nonetheless – because SERS paid \$2.7 billion in benefits in 2011 – the Fund is \$1.7 billion less than at this time in 2010.

The System has more retired members than active members and is paying out approximately \$166 million more each month than it is taking in through employee and employer contributions. SERS' increasing maturity raises the liquidity needs of the Fund and will require that assets be rebalanced to meet the need.

#### **Employer Contributions**

The "employer normal cost" is the amount employers would contribute if all actuarial assumptions were *precisely* correct and the Fund *exactly* achieved its assumed rate of return year over year. Because it is highly unlikely that such a situation could ever occur, Pennsylvania's State Employees' Retirement Code requires SERS to adjust the employer contribution rate—expressed as a percentage of payroll—each year based on actual experience and investment performance.

The employer contribution rate is calculated by an independent actuary, taking into account employee contributions, demographic activity, investment earnings and future liabilities.

Based on the actuary's recommendation and statutory limitations, the SERS board annually certifies an employer contribution rate. The rate has fluctuated dramatically over the years, in 1981 the rate was approximately 18%, for example, but from 2001-03 the rate was 0%.

**30-Year Snapshot**Contrasting Employer & Employee Contributions

	1981	2011
<b>Employer Rate</b>	17.9%	8.0%
<b>Employer Contributions</b>	\$326 million	\$399 million
<b>Employee Rate</b>	5.00%	6.25%
<b>Employee Contributions</b>	\$116 million	\$350 million
<b>Active Employees</b>	117,000	107,000
Annuitants	53,000	115,000

As one would expect, then, the total dollars contributed by employers has varied from year to year. In 1981, employer contributions totaled \$326 million, in 2011 that figure was \$399 million—a nominal dollar-for-dollar increase that would likely be a decrease if adjusted for inflation. As provided by the Budget Office, SERS employers under the Governor's jurisdiction paid less than half of the employers' share—about 46%—from general funds. Approximately 22% came from special funds; approximately 15% came from federal funds; and approximately 17% came from other sources.

The employer contribution rate has two parts: the cost to fund the benefits of new SERS members in the current year (as applied to all active members) and a contribution toward SERS' unfunded liability. When SERS reduced its assumed rate of return from 8.5% to 8% in 2009, the change increased SERS unfunded liability by approximately \$1.6 billion which, in turn, increased future employer contribution rates. As a simplified "rule of thumb," every 1% change in the assumed rate of return impacts employer rate contribution projections by approximately 7%.

The fiscal year 2012/13 employer contribution is currently legislated to be 11.5% with increases capped at 4.5% each subsequent year. If the contribution were not legislatively capped, the rate would be 22.5% — about 4.1% to fund the benefits of new SERS members in the current year and about 18.4% to pay toward SERS' unfunded liability.

Because the employer rate will remain below actual cost until at least 2015, SERS' deficit will continue to grow in the near term. The deficit will grow more slowly, however, each year that the employer rate rises closer to the actual cost.

#### Projected Employer Contributions, Payout, and Funding Status

Assuming 6.2% salary growth, 2.75% inflation, 8% investment return and 6.25% employee contribution

		Employer Contribution		Payout**	Fundin	g Status**

<sup>\*</sup>Assumes an unaudited 2.6% investment return.

<sup>\*\*</sup>Figures are based upon previous calendar year's actuarial valuation.

#### Actuarial Status: Current Funded Position of SERS' Defined Benefit Plan

The "funded position" of a defined benefit plan is measured by its "funded ratio" which is the actuarially calculated value of assets divided by the actuarially calculated sum of retirement benefits earned by all existing SERS members — more than 227,000 active, vested and retired employees.

At the close of 2011, SERS' estimated funded ratio was 69% (actuarial value) or 61% (market value).

SERS funded ratio has varied significantly over time:

#### **SERS Funded Ratio**

	Actuarial Value	Fair (Market) Value
1991	98.7%	109.2%
1996	105.7	116.0
2001	116.3	104.4
2006	92.7	99.6
2011	69.0	61.3

The unfunded liability associated with the 2011 ratio is \$12.5 billion (actuarial value) or \$16.1 billion (market value). As discussed, SERS unfunded liability will grow in the near term, as 2008 losses are recognized and employer contribution rates are suppressed by Pennsylvania law.

Factors influencing the unfunded liability have been building over time, including but not limited to:

- sustained periods of employer contributions below normal costs
- losses that neutralized past investment gains used to justify the low employer contributions
- benefit increases including cost of living adjustments and increased "accrual rates," for example without corresponding funding streams
- legislatively mandated actuarial changes that extended the time over which liabilities be paid
- demographic and salary evolution
- cumulative negative impact of the above on the overall size of the Fund and its investment returns

In 2010 the number of employees drawing from the Fund exceeded the number of employees paying into it. Ten years ago, in 2001, monthly payments from the Fund were \$86.0 million, a sum that had grown to \$186.8 million in 2011.

### Funding Process & Actuarial Status (continued)

<sup>&</sup>lt;sup>1</sup>/<sub>2011</sub> figures are unaudited.

As indicated, courts have held that retirement benefits earned by members of public pension systems are protected by the United States and Pennsylvania constitutions. Thus, the sum of benefits earned by existing SERS members is a debt that has already been incurred by the Commonwealth.

The State Employee's Retirement Code, Title 71, Pa.C.S. §5951 sets forth that "Statutory interest charges payable, the maintenance of reserves in the Fund and payment of all annuities and other benefits granted by the board under the provisions of this part are hereby made obligations of the Commonwealth. All income, interest, and dividends derived from deposits and investments authorized by this part shall be used for the payment of the said obligations of the Commonwealth."

### Actuarial Status: Restoring SERS' Defined Benefit Plan Funding

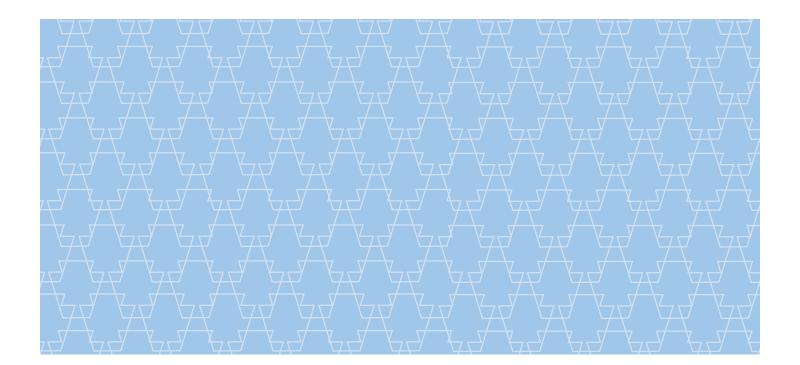

SERS' unfunded liability is growing more slowly than it otherwise would have been growing because of Act 2010-120 which saves approximately \$1.5 billion over 30 years by reducing the retirement benefit "accrual rate"; increasing the Normal Retirement Age; eliminating the lump sum withdrawal option; extending the vesting period from five years to ten years and other provisions for employees hired on or after January 1, 2011.

It will, however, take considerable time to realize benefits from the lower costs. SERS' funded ratio will improve as employees hired before January 2011 retire and post-January 2011 hires begin to fill employee ranks in greater proportion.

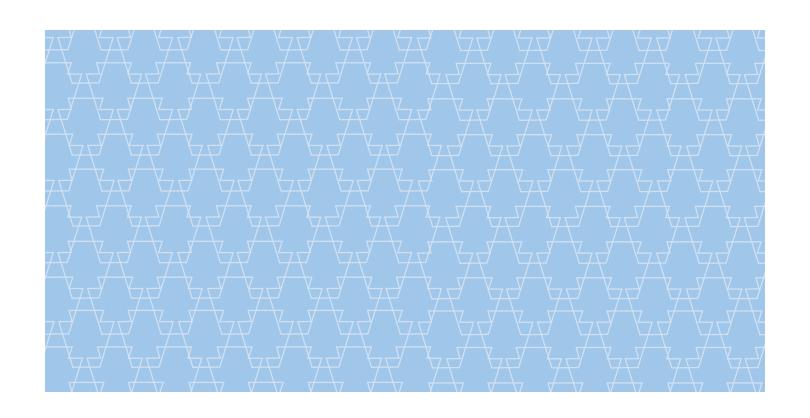

Act 2010-120 also recognized the need for greater rates of employer funding and does allow employer contributions to increase over time. To ensure predictability and to moderate overall budget impacts, the General Assembly set forth measured intervals for increased employer contribution rates. Often referred to in shorthand as the "Act 120 collars," as previously discussed, the legislation limits future year-to-year increases in employer contributions to 4.5%.

Because the collared employer rate remains below actual cost for a number of years, SERS' deficit will continue to grow in the near term. As the rate increases, however, its impact on paying down the liability is dramatic. Such funding is among the most crucial components of the overall, long-term stability of the pension system. Thus, as Commonwealth employers meet the increases mandated by the General Assembly in Act 2010-120, SERS will again approach full funding in approximately 30 years.

<sup>&</sup>lt;sup>2</sup>/Figure does not include 4th quarter earnings for Alternative Investments and Real Estate. Data was not yet available. \*Ten year net additions and deductions were \$(542).

# Investment Policy, Objectives and Performance

## Investment Policy

The Board originally adopted a formal *Statement of Investment Policy* in 1979. It has been revised periodically, to reflect and incorporate legislative changes governing investments and amendments to policies and procedures guiding the investment of the defined benefit portfolio. The latest *Statement of Investment Policy* was adopted in 2009. The purpose of the statement is to formalize the Board's investment objectives, policies, and procedures, to establish guidelines for the investment of Fund assets, and to define the duties and responsibilities of the various entities involved in the investment process. The major elements of the statement are:

- As fiduciaries, the Board will exercise that degree of judgment, skill and care under the circumstances then prevailing which investors of prudence, discretion and intelligence, who are familiar with such matters, exercise in the management of their own affairs in investment matters;
- The Fund's overall investment objective is to provide a total rate of return, over full economic cycles, which exceeds the return of a fully diversified market portfolio within each asset class. The Board seeks to meet this objective within acceptable risk parameters through adherence to a policy of diversification of investments by type, industry, quality and geographic location;
- The Board employs an investment staff and also contracts with investment advisors and consultants to provide expert, professional judgment in all investment decisions;
- An annual strategic investment plan is prepared to establish the allocation of funds among investment advisors and categories of assets during the year;
- Objectives are established for each category of assets used by the Fund's investment advisors to provide a framework for monitoring quality, diversification and liquidity;
- SERS is committed to promoting and improving good corporate governance practices of companies within the portfolio; and
- Where investment characteristics, including yield, risk and liquidity are equivalent, the Board's policy favors investments which have a positive impact on the economy of Pennsylvania.

### Investment Objectives

To assure an adequate accumulation of reserves in the Fund at the least cost to the citizens of the Commonwealth and to provide some protection against the erosion of principal by inflation, the long-term investment objectives for the Fund, are:

- Achieve a net total return equivalent to the actuarial return assumption, or preferably in excess of this rate over market cycles in order to improve the funded ratio of the System through investment earnings;
- Achieve in Global Stock a total return that exceeds the total return of the MSCI World Net Dividends Index;
- Achieve in U.S. Stock a total return that exceeds the total return of the Russell 3000 Index;
- Achieve in Non-U.S. Stock a total return that exceeds the total return of the MSCI ACWI ex U.S. IMI Net Index;
- Achieve in the stand alone Absolute Return Strategy a total return that exceeds the 90 Day LIBOR + 300 bps benchmark;
- Achieve in the Fixed Income asset class a total return that exceeds the total return of the SERS Custom Fixed Income Benchmark;
- Achieve in the Real Estate asset class a total return that exceeds the total return of the Townsend Stylized Benchmark;
- Achieve in the Private Equity asset class a total return that exceeds the Russell 3000 Index + 300 bps benchmark;
- Achieve in the Venture Capital asset class a total return that exceeds the Russell 3000 Index + 300 bps benchmark;
- Achieve in Inflation Protection a total return that exceeds the total return of the SERS Custom Inflation Protection Benchmark;
- Achieve in the Cash asset class a total return that exceeds the total return on 3 Month T-bills;

Total return includes income, both realized and unrealized gains and losses, and is computed on market value. The Board seeks to meet these objectives within acceptable risk parameters through adherence to a policy of diversification of investments by type, industry, investment manager style and geographic location.

### Asset Allocation Trend

### **Prudent Investor Investment Standards**

The Board's investment authority is governed by the "prudent investor" standard as set forth in Title 71, Pennsylvania Consolidated Statutes, Section 5931(a). Enactment of the "prudent investor" standard in Act 1994-29 and asset/liability studies completed by SERS' general investment consultants and the SERS Investment Staff are the foundation of SERS' investment strategy. With "prudent investor" investment authority, SERS is able to pursue a broader array of investment opportunities that enhance the ability to achieve reasonable rates of return while maintaining risk at acceptable levels.

### **Total Fund Asset Allocation**

SERS develops an annual strategic investment plan which provides direction for the SERS' investment program. The 2011 Annual Strategic Investment Plan will be implemented over a period of five years. The Fund's asset allocation strategy will evolve over this timeframe until the long-term targets for each asset category are achieved by the end of the year 2015.

# Investment Program Summary

## Investment Program Summary

as of December 31, 2011 - (Unaudited)

The assets of SERS are administered by the Board. The Board adopted an investment policy (Policy) that incorporates the provisions of the Retirement Code which govern the investment of SERS' assets. The Policy provides investment objectives and guidelines. SERS' investment plan is reviewed and updated annually for strategic asset allocation purposes, as well as for diversification needs within each asset class.

**Market Exposure as of December 31, 2011**: SERS' assets had an unaudited market exposure of approximately \$24.2 billion.

## Global Stock Investments Summary

as of December 31, 2011 - (Unaudited)

Global Stock is a component of the stock asset class, one of six major asset classes which SERS uses to diversify the investments of the Fund. SERS' investment plan diversifies stock investments while maintaining a reasonable risk posture relative to the benchmarks. SERS contracts with external investment advisors to manage the portfolios.

**Investment Objective**: Stock investments are employed by the Fund primarily because their expected return premiums versus inflation will, if realized, help preserve and enhance the real value of the Fund over long periods of time. The Global Stock accounts are managed on a total return basis.

SERS' long-term investment objective for the Global Stock component of the stock asset class is to achieve a total return, net of fees, that exceeds the total return of the MSCI World Net Dividends Index.

SERS' 2011 Annual Strategic Investment Plan targets a long-term allocation of 5.0% of Fund assets to global stocks.

**Market Exposure as of December 31, 2011**: Global Stock had a \$920.4 million market exposure, 3.8% of the total Fund's \$24.2 billion.

Number of Investment Advisors: SERS had contracts with two external investment advisors.

**Type of Investment Portfolios**: As of December 31, 2011, SERS Global Stock allocation was invested in large/mid-capitalization strategies.

### **SERS Global Stock Investments**

	Global Stock Investment Advisor	Investment Style	Market Exposure as of 12/31/11* (\$ millions)
1.	Walter Scott & Partners	Growth	\$448.9
2.	Marathon-London Global Fund	Contrarian sector relative value	471.5

### U.S. Stock Investments Summary

as of December 31, 2011 - (Unaudited)

U.S. Stock is a component of the stock asset class, one of six major asset classes which SERS uses to diversify the investments of the Fund. SERS' investment plan diversifies stock investments while maintaining a reasonable risk posture relative to the benchmarks. SERS contracts with external investment advisors to manage portfolios.

**Investment Objective**: Stock investments are employed by the Fund primarily because their expected return premiums versus inflation will, if realized, help preserve and enhance the real value of the Fund over long periods of time. The U.S. Stock asset class is managed on a total return basis.

SERS' long-term investment objective for the U.S. Stock component of the stock asset class is to achieve a total return, net of fees, that exceeds the total return of the Russell 3000 Index.

Stock investments may include, but not be limited to, publicly traded securities which provide SERS with an equity interest, (e.g., common stock, preferred stock, convertible preferred stock, and convertible bonds).

SERS' **2011** Annual Strategic Investment Plan targets a long-term allocation of 12.5% of assets to U.S. Stock: 10.0% of the Fund to large cap and 2.5% of the Fund to mid/small cap, approximating the composition of the Russell 3000 Index.

The large cap U.S. stocks, benchmarked to the S&P 500 Index, uses index funds and a hedge fund-of-funds investment. The mid/small cap U.S. stocks, benchmarked to the Russell 2500 Index, uses index funds, and active strategies benchmarked to the Russell Midcap Index and the Russell 2500 Index.

**Market Exposure as of December 31, 2011**: U.S. Stock had a \$3.3 billion market exposure, 13.5% of the total Fund's \$24.2 billion.

**Number of Investment Advisors**: SERS had contracts with five external investment advisors.

**Type of Investment Portfolios**: As of December 31, 2011, 10.8% of the total Fund was in large cap U.S. stocks, and 2.7% in mid/small cap U.S. stocks.

### **SERS U.S. Stock Investments**

## Non-U.S. Stock Investments Summary

as of December 31, 2011 - (Unaudited)

Non-U.S. Stock is a component of the stock asset class, one of six major asset classes that SERS uses to diversify the investments of the Fund. SERS' investment plan diversifies stock investments while maintaining a reasonable risk posture relative to the benchmarks. SERS contracts with external investment advisors to manage portfolios.

**Investment Objective**: Stock investments are employed by the Fund primarily because their expected return premiums versus inflation will, if realized, help preserve and enhance the real value of the Fund over long periods of time. The Non-U.S. stock asset class is managed on a total return basis.

SERS' long-term investment objective for the Non-U.S. Stock component of the stock asset class is to achieve a total return, net of fees, that exceeds the total return of the MSCI ACWI ex U.S. IMI Net Index.

SERS' **2011** *Annual Strategic Investment Plan* targets a long-term allocation of 21.5% of assets to non-U.S. stocks: 10.6% of the Fund to large/mid cap stocks in developed markets, 1.9% of the Fund to small cap stocks in developed markets, and 9.0% of the Fund to stocks in emerging markets.

The large/mid cap stocks in non-U.S. developed markets, benchmarked to the MSCI EAFE Index (net), uses indexed products and active strategies. The small cap stocks in non-U.S. developed markets, benchmarked to the MSCI EAFE Small Cap Index (net), uses active strategies. The emerging markets stocks allocation is benchmarked to the MSCI Emerging Markets Index (net) and uses an MSCI Emerging Markets Index fund as well as active strategies.

**Market Exposure as of December 31, 2011**: Non-U.S. Stock had a \$2.8 billion market exposure which was 11.8% of the total Fund's \$24.2 billion.

Number of Investment Advisors: SERS had contracts with eight external investment advisors.

**Type of Investment Portfolios**: As of December 31, 2011, 7.1% of the total Fund was allocated to large/mid cap stocks in non-U.S. developed markets; 1.4% to small cap stocks in non-U.S. developed markets; and 3.2% to emerging markets.

## Absolute Return Strategies Investments Summary

as of December 31, 2011 - (Unaudited)

Absolute Return Strategies are used to diversify the investments of the Fund. This mandate is expected to enhance the Fund's overall risk-adjusted profile, thereby increasing the Fund's long-term efficiency, as measured by the Fund's expected return per unit of risk (information ratio). SERS contracts with external fund-of-hedge funds (FOHF) investment advisors to manage these portfolios.

Investment Objective: Absolute Return Strategies are intended to produce uncorrelated diversified return streams in the portfolio to help preserve and enhance the real value of the Fund over long periods of time. Absolute Return Strategies are managed on a total return basis.

SERS' long-term investment objective for the Absolute Return Strategies is to achieve a total return, net-of-fees, that exceeds the 90 Day LIBOR + 300 bps benchmark.

SERS' 2011 Annual Strategic Investment Plan targets a long-term allocation of 9.0% of Fund assets to Absolute Return Strategies.

Market Exposure as of December 31, 2011: Absolute Return Strategies had a \$2.0 billion market exposure, 8.2% of the total Fund's \$24.2 billion.

Number of Investment Advisors: SERS had contracts with six external investment advisors.

Type of Investment Portfolios: As of December 31, 2011, SERS' Absolute Return Strategies were diversified through many strategies and sub-strategies.

### **SERS Absolute Return Strategies Investments**

	Absolute Return Strategies Investment Advisor	Investment Style	Market Exposure as of 12/31/11* (\$ millions)
1.	Arden	Absolute Return	\$245.8

5.	Pacific Alternative Asset Management Company	Absolute Return	111.1
6.	Rock Creek	Absolute Return	194.7
	<b>Total Absolute Return Strategies</b>		\$1,984.6

<sup>\*</sup>Includes stocks and cash which the manager had available for investment. Numbers may not add due to rounding.

## Fixed Income Investments Summary

as of December 31, 2011 - (Unaudited)

Fixed Income is one of six major asset classes that SERS uses to diversify the investments of the Fund. The SERS' investment plan diversifies Fixed Income investments and strategies. SERS contracts with external investment advisors to manage portfolios.

**Investment Objective**: The Fixed Income asset class is employed by the Fund because of its ability to generate current income from interest payments, (increase the value of the Fund through the reinvestment of those interest payments), provide the Fund with its primary source of liquidity, serve as a hedge against disinflation and/or deflation, and to help diversify the overall Fund.

In the Fixed Income asset class, SERS' long-term investment objective is to achieve a total return, net of fees, that exceeds the total return of the SERS Custom Fixed Income Benchmark which is comprised of the Barclay's Capital Aggregate Index (34.8%), the Custom Intermediate TIPS (20.0%), the Citigroup High Yield Market (22.2%) and JP Morgan Emerging Market Bond indices (23.0%).

SERS' **2011** Annual Strategic Investment Plan targets a long-term allocation of 26.0% of assets of the total Fund to the Fixed Income asset class. Of this amount, 70.0% is targeted to the core strategies (including global and TIPS) and 30.0% to specialty strategies (high-yield and emerging market debt).

**Market Exposure as of December 31, 2011**: Fixed Income had a \$4.5 billion market exposure, 18.5% of the total Fund's \$24.2 billion.

Number of Investment Advisors: SERS had contracts with 17 external investment advisors.

**Type of Investment Portfolios**: The Fixed Income asset class is divided into core and specialty segments.

Core: Core portfolios invest in relatively liquid, high quality, fixed income securities with intermediate term durations that meet return, disinflation/deflation, high quality liquidity and diversification needs of the Fund. SERS had nine actively managed core bond portfolios and one passively managed core fixed income portfolio; one Custom Intermediate Duration Treasury Inflation Protected (TIPS) portfolio, one global TIPS portfolio, two global core portfolios, two US Treasury portfolios, one asset backed security portfolio and one portfolio indexed to Barclay's Capital Aggregate Index and two corporate credit portfolios. The nine actively managed core portfolios totaled \$2.5 billion. The passively managed portfolio was valued at \$419.5 million. The combination of core portfolios represented 65.1% of the asset class.

**Specialty**: The specialty strategy portfolios (high-yield, emerging market debt, subordinated debt, mezzanine debt, and bank loan structured credit) focus on debt instruments offering higher return premiums and different risk characteristics than core fixed income securities. SERS had one corporate high yield portfolio with a market exposure of \$402.0 million, one high yield commercial mortgage-backed securities portfolio with a market exposure of \$250.7 million, one structured credit portfolio with a market exposure of \$125.3 million, four emerging market debt portfolios with a market exposure of \$755.7 million and \$24.5 million of other investments. The specialty portfolios represent 34.9% of the asset class.

## Cash Investments Summary

### as of December 31, 2011 - (Unaudited)

Cash is one of six major asset classes that SERS uses to diversify the investments of the Fund. Historically, the Cash asset class has been employed by the System to provide for SERS' liquidity needs as well as accumulate funds for future investment.

The asset class emphasizes the use of higher credit quality debt instruments which are liquid and have short maturities and durations, or which have floating rates and have historically been invested in The Pennsylvania State Treasury Department's Short–Term Investment Fund (STIF).

**Investment Objective**: On an asset allocation basis, cash has the lowest expected return of all asset classes. Therefore, since SERS is a long-term investor, the objective is to minimize exposure to this asset and maintain a long-term allocation to the Cash asset class of zero.

Cash payments to meet the Fund's benefit payments and other obligations are sourced through employee and employer contributions, limited partnership distributions, and raising cash from public market managers from time to time. Distributions from limited partnerships are unpredictable and dependent on market conditions and terms of partnership agreements. Accordingly, raising cash from public market equity, fixed income, and fund-of-hedge funds managers is required to meet monthly cash flow requirements.

In the Cash asset class, SERS' long-term investment objectives are to achieve a total return, net of fees, that exceeds the total return on 3 Month T-bills.

**Market Exposure as of December 31, 2011**: The effective cash exposure was \$759.9 million or 3.1% of the total Fund's \$24.2 billion.

**Number of Investment Advisors**: The cash strategy uses the State Treasury to manage the uninvested cash in the liquidity accounts.

**Type of Investment Portfolios**: SERS' Cash asset class currently employs a money market short-term investment strategy. The portfolio also contains the uninvested cash balances held by other SERS investment advisors in other asset classes. Cash is invested in high-quality, highly liquid, short-term investments.

In the aggregate, the State Treasury managed approximately \$958 million on behalf of SERS and SERS' external investment advisors as of December 31, 2011.

## Real Estate Investments Summary

as of December 31, 2011 - (Unaudited)

Real Estate is one of six major asset classes that SERS uses to diversify the investments of the Fund. SERS' investment plan diversifies real estate investments and balances real estate management styles. In accordance with the investment plan, SERS contracts with external investment advisors to manage portfolios.

**Investment Objective**: Real Estate investments are generally long-term, illiquid investments that, due to their high correlation with inflation, provide an inflation hedge and, due to their low correlation with stocks and bonds, provide diversification within the total portfolio. It is expected that the long-term total return (income and appreciation) for real estate will fall between that of stocks and bonds. The Real Estate asset class is managed on a total return basis.

In the Real Estate asset class, SERS' long-term investment objective is to achieve a total net return that exceeds the total return of the Townsend Stylized Benchmark for rolling five year periods. SERS' **2011** *Annual Strategic Investment Plan* targets a long-term allocation of 8.0% of assets to the Real Estate asset class.

Investments are made through commingled fund investments, limited partnerships, REITs and separate account portfolios where SERS contracts with external investment advisors to own properties directly or with other coinvestors. SERS' Real Estate portfolio provides for diversification by:

- Transaction structure
- Property type
- Geographic location
- Development phase

Fair Value as of December 31, 2011: Real Estate had \$2.6 billion fair value, 10.6% of the total Fund's \$24.2 billion.

**Number of Investment Advisors**: SERS had contracts with 26 external investment advisors to manage Real Estate portfolios as of December 31, 2011.

**Type of Investment Portfolios**: The most recent property diversification data is as follows:

- 40% pooled funds, 60% separate accounts
- 22% office, 4% industrial, 9% retail, 28% multifamily, 11% hotel, 8% timber, 18% other (including senior and student housing, land and various niche property investments)
- 9% Pennsylvania, 35% East excluding PA, 26% West, 13% South, 5% Midwest, 12% International
- 18% of the fair value of the separate accounts was invested in 14 investments located in Pennsylvania

### Alternative Investments Summary

as of December 31, 2011 - (Unaudited)

Alternative Investments is comprised of Private Equity and Venture Capital investments, both of which take the form of limited partnerships, and is one of six major asset classes that SERS uses to diversify the investments of the Fund.

### **Private Equity and Venture Capital Defined**

Private Equity primarily refers to investments in the equity and subordinated debt of established companies. Private equity approaches undertaken by SERS' limited partnerships include three types: (1) Leveraged buyouts and management buyouts, (2) Distressed debt investing, and (3) Secondary interests in established private equity funds. Leveraged buyouts and management buyouts involve companies acquired through the use of borrowed funds, or a combination of borrowed funds and contributed equity capital. The acquired company's assets serve as collateral for the borrowed funds, which are repaid from the company's cash flows. Distressed debt investing involves: deleveraging debt-laden but successful companies, by infusing capital to permit debt reduction in exchange for an equity stake in the company; or acquiring the debt of a troubled, sometimes bankrupt company at steep discounts to face value, followed by assistance to return the company to profitability to permit selling of the debt securities at levels above the discounted purchase price. Secondary interests in established private equity funds are purchased from other investors who seek liquidity or desire to realign or rebalance their investment portfolios, often for non-financial reasons. Such partnership interests can be purchased at significant discounts to net asset value and often occur when the acquired partnerships begin to realize profits.

Venture Capital is the financing of young, rapidly growing companies, typically at three stages of development: (1) seed and early stage, (2) late and later stage, and (3) growth or expansion stage. Seed financing supports companies in their conceptual phase, when a product and market are identified, and a corporation may have been formed. Early stage financing supports companies pursuing a business plan but not yet generating meaningful revenues. For instance, when a product has been developed and may have been shipped to customers for testing, and when management positions have been filled and an operating team is in place. Late and later stage financing supports companies that have proven revenues, and are in the process of rolling out operations and building sales to achieve profitability. Growth or expansion stage financing supports profitable or nearly profitable businesses that, lacking access to significant debt financing, need capital for growth and expansion. Companies at either the later stage, or growth or expansion stage may be nearing a strategic sale to another company or an initial public offering.

**Investment Objective**: SERS' long term investment objective for Alternative Investments is to achieve a total return, net of fees, in excess of the return generated by the Russell 3000 Index + 300 bps. SERS' **2011** *Annual Strategic Investment Plan* targeted an Alternative Investment long–term allocation range with a midpoint of 15.0%.

**Fair Value as of December 31, 2011**: Alternative Investments had \$6.3 billion fair value after adjusting the September 30, 2011 valuation for subsequent cash flows in the fourth quarter. Alternative Investments constitutes 26.2% of the total Fund's \$24.2 billion. Sub-asset class fair values and fund percentages were as follows:

### **SERS Alternative Investments**

	Commitments (\$ millions)	Fair Value (\$ millions)	Percent of Total Fund
Venture Capital	\$365.4	\$1,749.2	7.2%
Private Equity	1,388.6	4,584.8	19.0
<b>Total Alternative Investments</b>	\$1,754.0	\$6,334.0	26.2%

**Number of Limited Partnerships**: As of December 31, 2011, SERS had commitments to 350 active Alternative Investments limited partnerships, 229 to Private Equity partnerships and 121 to Venture Capital partnerships.

## Alternative Investments Summary (continued)

Portfolio: SERS' Alternative Investment Program's scope has expanded over the years to include top investment funds nationally and internationally. The Program holds indirect investment interests in over 4,500 companies. The Private Equity Program invests in buyout, distressed, international, and secondary oriented partnerships. Buyout transactions are privately negotiated or result from investment bank sponsored auctions, and are usually completed with present management in place; hostile acquisitions are generally avoided. Distressed investment managers employ differentiated strategies, i.e., they employ control or non-control approaches, and accordingly, have differing degrees of active influence over the companies in which they invest. European funds are attempting to capitalize on trends favoring the restructuring of large companies, generational succession in businesses established after World War II, cross-border business opportunities within the region since the formation of the European Union and currency harmonization. Asian investments focus on the expanded opportunities in the region created by changing attitudes in many Asian countries regarding foreign investment, favorable demographic trends, globalization opportunities, and economic growth. The Program typically gains initial exposure to emerging markets and other target regions through the use of fund-offunds. Additionally, SERS utilizes one manager to oversee stock distributions and another manager for co-investment opportunities.

The Venture Capital Program includes investments working to commercialize novel solutions to current and future challenges in information technology, communications, and medicine. In addition to direct fund investments, the Venture Capital Program includes investments in several fund-of-funds. A fund-of-funds is a limited partnership that, in turn, invests in other limited partnerships. Six of these fund-of-funds commitments have the strategic goal of enabling SERS to gain indirect exposure to many top-tier venture capital funds that SERS would otherwise have difficulty accessing directly. Another two of these commitments are to funds investing in minority-focused venture capital funds.

Alternative Investment Portfolio Exposure: The Alternative Investment Program is well-diversified by stage of investment, industry focus, and geography. As of September 30, 2011, based on fair value, the Program's exposure was as follows:

### **By Fund Sub Sector:**

U.S. Private Equity	40.5%
U.S. Venture Capital	24.4
Non-U.S. <sup>1/</sup>	21.7
Distressed/Opportunistic	9.6
Pennsylvania Related	3.9

### By Portfolio Company Geography:

United States	66.3%
United Kingdom	6.0
France	2.7
Italy	2.5
Germany	2.3
China	2.1
Canada	1.6
Rest of World	16.5

### By Portfolio Company Industry:

•		•
	Information Technology	19.8%
	Consumer Discretionary	18.8
	Financials	18.6
	Health Care	14.5
	Industrials	11.3
	Energy	4.7
	Materials	3.4
	Consumer Staples	3.2
	Telecommunication Svcs	3.0
	Other	2.7

<sup>1/</sup> Some managers with a domestic investment focus may invest globally. Thus, Non-U.S. exposure measured on a portfolio company basis will be greater.

## Venture Capital Committed, Drawn and Distributed

as of September 30, 2011 - (Unaudited)

The capital committed column represents total dollars allocated from SERS to each limited partnership. Capital drawn is the portion of SERS' capital commitments drawn by the General Partner to be invested with underlying portfolio companies. The distributions column shows the value of capital and profits returned to SERS.

## Private Equity Committed, Drawn and Distributed

as of September 30, 2011 - (Unaudited)

The capital committed column represents total dollars allocated from SERS to each limited partnership. Capital drawn is the portion of SERS' capital commitments drawn by the General Partner to be invested with underlying portfolio companies. The distributions column shows the value of capital and profits returned to SERS.

Active Private Equity Funds Limited Partnership	Financing Stage Focus	SERS Initial Funding	Capital Committed**	Capital Drawn	Distributions

## Inflation Protection Investments Summary

as of December 31, 2011 - (Unaudited)

Inflation Protection is one of six major asset classes that SERS uses for investments of the Fund. The objective of this asset class is to reduce the deleterious affects of inflation by investing in strategies that specifically respond to expected and unexpected inflation. In accordance with SERS' investment plan, SERS contracts with external investment advisors to manage portfolios.

**Investment Objective**: Inflation Protection investments are employed by the Fund to provide diversification within the total Fund and to act as a hedge against inflation. The asset class is composed of actively managed commodities; and a diversified inflation protection portfolio that includes commodities, inflation–sensitive stocks, and bonds. The strategies that make up the asset class were chosen for their inflation protection properties; commodities historically have the highest correlation to inflation. The Inflation Protection strategies also provide diversification and low correlation to other assets in the portfolio, and are expected to outperform stocks and bonds during periods of rising inflation, but may underperform when inflation is stable or falling.

SERS' long-term investment objective in the Inflation Protection asset class is to achieve a total return, net of fees, that exceeds the total return of the SERS Custom Inflation Protection Benchmark.

SERS' **2011** *Annual Strategic Investment Plan* targets a long–term allocation of 3.0% of assets to Inflation Protection. Within this 3.0% allocation, 50.0% is targeted to the active diversified inflation protection portfolio, and the remaining 50.0% is targeted to the active multi–manager commodity portfolio.

**Market Exposure as of December 31, 2011**: Inflation Protection strategies had a \$1.0 billion market exposure, 4.2% of the total Fund's \$24.2 billion.

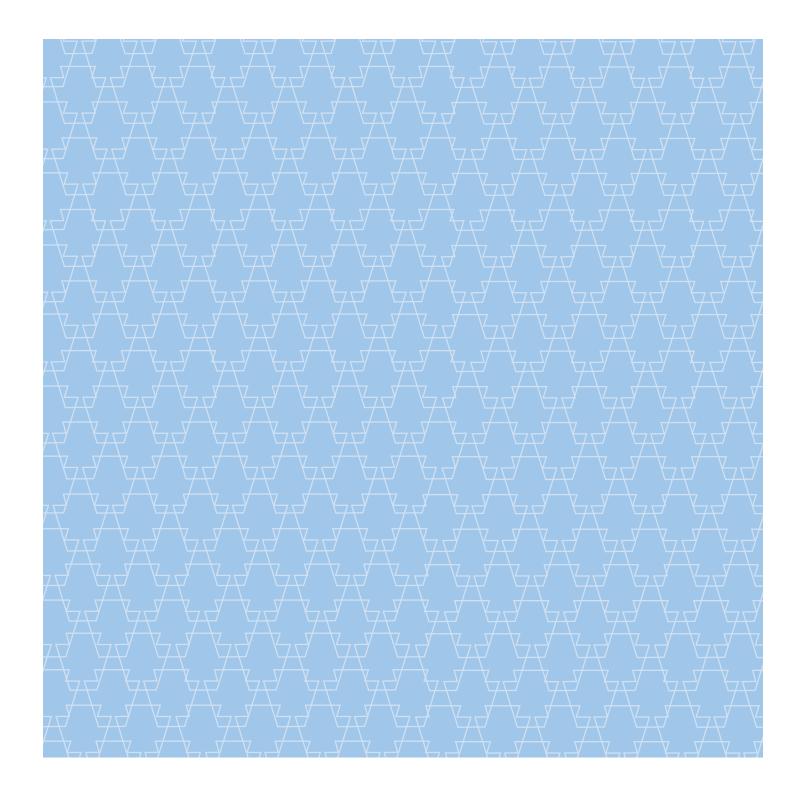

Number of Investment Advisors: SERS had contracts with two external investment advisors.

**Types of Investment Portfolios**: As of December 31, 2011, 45.4% of SERS' Inflation Protection allocation was invested in the actively managed diversified inflation protection portfolio which invests in commodities, inflation–sensitive global equity and TIPS. The remaining 54.6% was in the multi–manager commodity product, which employs five underlying commodities managers across the various commodity sectors (energy, precious metals, industrial metals and agriculture).

### **SERS Inflation Protection Investments**

	Inflation Protection Investment Advisor	Investment Style	Market Exposure as of 12/31/11* (\$ millions)
1.	Wellington Management Company	Diversified inflation protection portfolio	\$465.4
2.	Blackstone Alternative Asset Management	Fund-of-commodity funds	560.1
	<b>Total Inflation Protection Investments</b>		\$1,025.5

## Pennsylvania Investments Summary

as of December 31, 2011 - (Unaudited)

The Board, employees of SERS and agents of the Board stand in a fiduciary relationship to the members and beneficiaries of the System regarding the investments and disbursements of the Fund. Subject to "prudent investor" investment responsibilities contained in the Retirement Code and the Fiscal Code, the Board has exclusive control and management of the Fund and full power to invest the assets of the Fund. The Board adopted a formal *Statement of Investment Policy* in 1979, which was last revised effective April 2009 to reflect and incorporate subsequent legislative and policy changes governing investments. Where investment characteristics including yield, risk and liquidity are equivalent, the Board's policy favors investments that have a positive impact on the economy of Pennsylvania.

The most significant impact the Fund can have on the State's economy is to manage an overall program that achieves a fully funded status and lowers the employer contributions to the Fund below the normal cost. The reduction of such contributions may then be used by the legislature for purposes it deems most important to Pennsylvania citizens and taxpayers, such as tax reduction, economic development or other priorities. Nevertheless, the Fund also seeks to invest in State–based companies and other State entities when investment characteristics are equivalent.

**Fair Value of Pennsylvania Investments as December 31, 2011**: SERS' assets had an unaudited fair value in Pennsylvania investments of approximately \$958.9 million, 4.0% of the SERS Fund.

## SERS Pennsylvania Investments By Asset Class (\$ millions)

	Total PA
Asset Class	Fair Value
Stocks	\$504.3
Fixed Income	19.4
Real Estate	226.8
Alternative Investments	208.4
<b>Total Pennsylvania Investments</b>	\$958.9

SERS investment portfolios have historically held investments in Pennsylvania firms, as some large national firms are headquartered in Pennsylvania, including Comcast Corporation (Philadelphia-Communications), PNC Financial Services (Pittsburgh-Financial), Air Products & Chemicals, Inc. (Allentown-Basic Materials), H. J. Heinz Company (Pittsburgh-Consumer), and PPG Industries Inc. (Pittsburgh-Basic Materials). In addition, SERS has invested in portfolios that are designed to give emphasis to investments in Pennsylvania while meeting the fiduciary standards mentioned previously.

### **Stocks**

SERS' Pennsylvania stock universe is comprised of 346 publicly-traded corporations which: 1) name their headquarters as Pennsylvania and have Pennsylvania employees or operations; or 2) have Pennsylvania-based employment exceeding 25% of total corporate employment. The following are some of the top performing Pennsylvania stocks for the 2011 calendar year.

### Pennsylvania Investments Summary (continued)

### **Top-Performing Pennsylvania Stocks**

## Pennsylvania Investments Summary (continued)

Emerald Advisors of Lancaster and Mellon Capital Management Corporation of Pittsburgh actively manage portfolios principallyderived from the mid/small cap stocks in SERS' Pennsylvania stock universe. These two portfolios, plus the Pennsylvania stocks held in SERS other stock portfolios, provided a total of \$504.3 million invested in Pennsylvania stocks.

### **Fixed Income**

SERS had approximately \$19.4 million invested as of December 31, 2011, in corporate securities issued by Pennsylvania-based companies. These securities are held in SERS' various externally managed bond portfolios.

In 1998, the SERS Board approved the funding for the Pennsylvania Capital Fund with a \$50 million allocation committed to the program. The program commenced in March 1999 managed by Berwind Financial Group (Berwind) and PNC Equity Management (PNC). Each advisor was awarded commitments of \$25 million to be invested over four years. Both entities matched SERS' investment. The program provided debt financing to support the expansion and growth of Pennsylvania small business. The Fund's objective was to lend to established, profitable companies in good financial condition with annual revenues ranging from \$10-\$100 million. The majority of the Fund's investments had a maturity of between five and ten years. Loan amounts usually ranged from \$2 million to \$15 million. As of December 31, 2011 SERS portion of Berwind investments totaled \$2.3 million while the PNC investments had matured and all capital was returned to SERS. Nearly all of Berwind's investments have also matured and capital distributed back to SERS.

To date the fund also has PA exposure with various other asset managers. The break out is listed below:

	Market Value	% of Total PA
Manager	(\$ millions)	Market Value
BNY Mellon	\$0.6	0.1%
Taplin Canida Habacht	5.7	0.6
Ramius Advisors	6.2	0.6
Stone Harbor	4.6	0.5

### Cash

SERS is one of the largest investors in the Pennsylvania State Treasury Department's Short-Term Investment Pool.

#### Real Estate

In 1987 SERS began investing directly in the Pennsylvania commercial real estate market and subsequently established two separate account real estate portfolios managed by Heitman Capital Management and Grosvenor Investment Management, formerly Legg Mason Real Estate Services, with a Pennsylvania focus. The Heitman separate account originally had a requirement to invest on a best efforts basis 50% of its initial allocation within the Commonwealth while the Grosvenor account is focused primarily on investing within the state.

As of September 30, 2011, the SERS real estate portfolio contained 49 Pennsylvania investments totaling 6.2 million square feet of office, retail, and warehouse space, and 4,829 apartment, hotel and senior housing units. The gross fair value of the Pennsylvania real estate portfolio investments totaled \$1.0 billion, of which SERS' ownership share was \$226.8 million.

### Alternative Investments

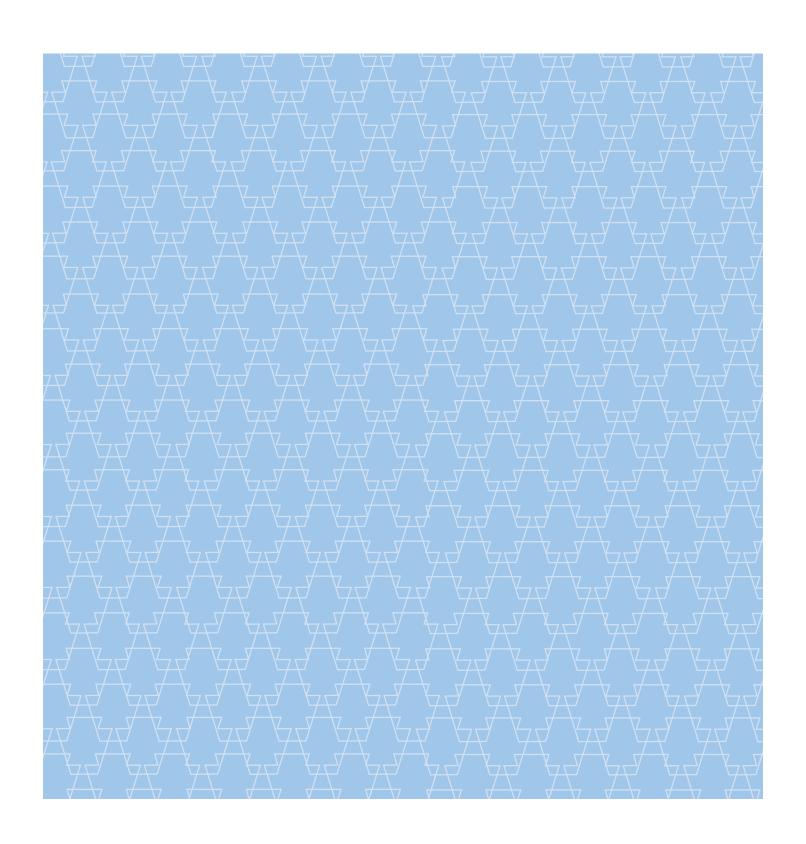

SERS' venture capital program dates back to 1985. Initially the program targeted a 1% allocation to venture capital with a focus to invest with managers located in Pennsylvania or with managers whom had a Pennsylvania investment mandate. Over its 26 year life the program has grown to include national and international based private equity and venture capital managers and the target allocation to alternative investments is currently 15%. Since inception, SERS' Alternative Investment program has made commitments of \$947 million to 52 limited partnerships based in Pennsylvania.

## Pennsylvania Investments Summary (continued)

In addition, the number of non-Pennsylvania based managers investing in companies that impact the state comprises a meaningful portion of the program.

As of September 30, 2011, SERS' active Alternative Investment managers held 120 Pennsylvania-based companies. SERS pro-rata investment value in these companies is approximately \$208.4 million. This equates to 3.3% of the Alternative Investment program fair value and does not include investments headquartered outside of Pennsylvania that may have impactful operations within the state.

Although the Board's fiduciary duty is to SERS' members and beneficiaries, investments in Pennsylvania provide an ancillary and subordinate benefit to the state's economy. The investment policy acknowledges that such benefit, derived from investments in Pennsylvania based companies, or firms employing Pennsylvanians, should be considered after other primary fiduciary investment characteristics are satisfied.

## Women/Minority Investment Advisor and Broker Report

as of December 31, 2011

### **Investment Advisors**

The following four women or minority-owned firms were under contract with SERS to provide investment advisory services as of December 31, 2011.

Firm	Status	SERS Assets Under Management
Fairview Capital I & II	Minority/Woman-Owned	\$20.0 million commitment; \$19.9 million funded
Hawkeye Partners	Woman-Owned	\$75.0 million commitment; \$75.0 million funded
Rock Creek (Penn Quarter, L.P.)	Minority/Woman-Owned	\$194.7 million fair value
Taplin, Canida & Habacht, Inc.	Minority/Woman-Owned	\$168.6 million fair value

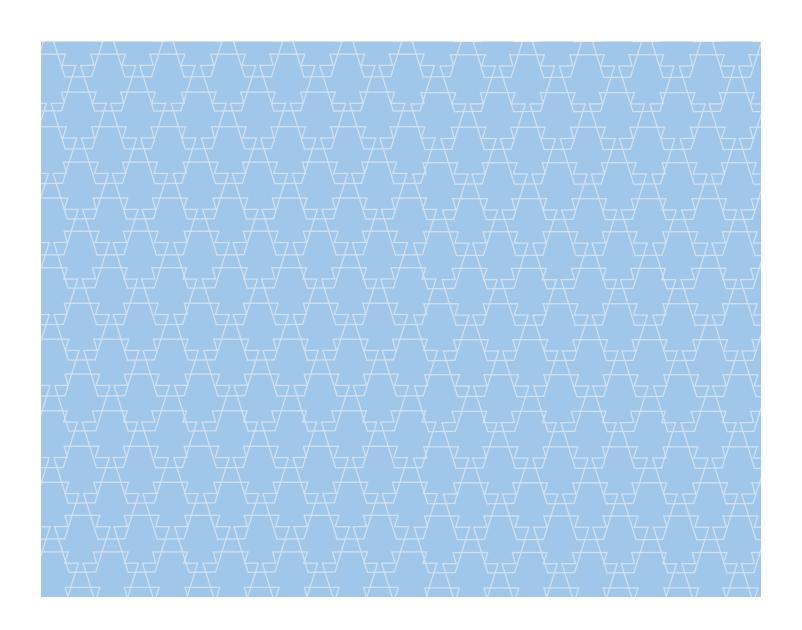

### **Brokers and Brokerage Commissions**

SERS's external investment advisors utilized the following minority-owned brokerage firms during calendar year 2011.

Minority commissions totaled \$186,131 for the year. Of this amount, international stock managers had \$52,865 of commissions credited to minority brokers. The SERS Board has a policy of targeting 5%-10% of U.S. stock commissions to be done with minority brokers. It is estimated that this year SERS U.S. stock managers directed 5% of their trades through minority brokers. In addition, although not included in the Board mandate, other SERS advisors are encouraged to trade through minority brokers. During 2011 fixed income managers traded \$27.2 million of securities through minority brokers.

Firm	Commissions
Cabrera Capital Markets	\$16,897
C L King	1,038
East West	9,768
Divine Capital Markets	2,339
Greentree Brokerage	7,358
Loop Capital Management	14,721
M Ramsey King	9,141
Seslia Securities	17,029
Sturdivant & Company	87,096
Williams Capital Group	20,744
<b>Total Minority Commissions</b>	\$186,131

# Deferred Compensation Program

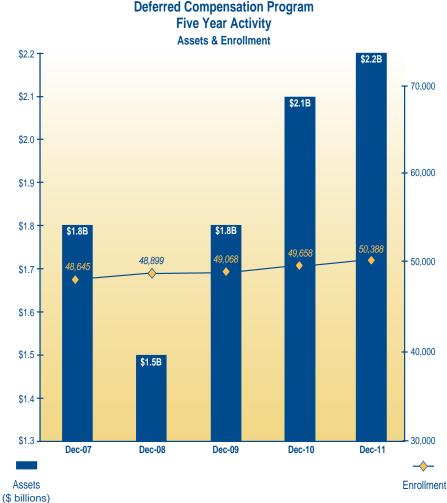

### Deferred Compensation Program

### **Program History**

Act 1987-81 assigned to the State Employees' Retirement Board (Board) the responsibility to establish and monitor a Deferred Compensation Program (Program) for Commonwealth officers and employees, through which participants may voluntarily build retirement savings by deferring a portion of salary to selected investment options. The Program is established as a trust, and is administered in accordance with Internal Revenue Code Section 457(b). Through the Request for Proposal process, the Board selected Great-West Retirement Services as Third Party Administrator (TPA) of the Program. The duties of the TPA are to maintain individual participant records, market the Program to participants, and counsel the members about the Program's benefits. The core investment options are selected by the Board, and are independent of the TPA's functions.

### **Growth of the Program**

Over the past five years, the Program's assets have increased in value from \$1.8 billion to approximately \$2.2 billion. The sharp drop in assets from \$1.8 billion in 2007 to \$1.5 billion in 2008 can be attributed to the downturn in the financial markets as participation in the program remained steady. As of December 31, 2011, there were 32,101 active and 18,237 inactive participants in the Program. The amount of annual participant deferrals over the past five years has ranged from \$122 million to \$160 million. In 2007, deferrals were \$160 million which was attributed to the large number of participant retirements that utilized the Program's special catch-up feature. Benefit payments to participants increased over that same time span, from \$48 million in 2007, to \$60 million in 2011. The chart below depicts the Program's asset and participation levels over the past five years.

### Deferred Compensation Program (continued)

### **Program Highlights**

The TPA provides participant assistance via individual and/or group counseling sessions with the eligible employee, at the employees' work site. The TPA has established a local walk-in office in the Harrisburg downtown area. A toll free telephone service with counselors is also available to offer personal assistance. A telephone Voice Response Unit can be accessed at anytime to allow the participant to check on their account balance, transfer funds among different investment options or inquire about other Program features. The participants may also access the Program's website at www.sers457.com to view their most recent investment position, to make future allocation changes, to transfer among investment options and to update beneficiary information. Educational videos on financial, investment and retirement planning are also available to help participants in their investment and retirement decisions. In January 2009, the Program began to offer managed accounts to its participants. Managed accounts are personalized investment portfolios put together from among the plan's investment options for participants who want a professional to do the investing for them.
